"Ab hoste doceri, miserum est non audere diceres."—*Cicero.*

WEDNESDAY, APRIL 3, 1861.

EDITOR'S TABLE.

Little news has been stirring since Sunday morning. The heat on that day was terrific, being probably the farewell of Summer. On Monday morning the city was awakened by loud peals of thunder, and the rain fell in torrents, continuing, although much abated, most of the day. There is reason to suppose these copious showers have been general through the campagna, and cheered the hopes of the farmers.

Accounts from the camp are varying, but in general gloomy. We are informed that Pilar and Capilla Señor are not so bad as was stated, but our countrymen have poor prospects unless the weather continue broken, and the frosts be delayed. A friend of ours from beyond Azul has lost all his horned cattle, strayed away in search of pasture. Losses have been heavy in the far South.

Insecurity for life and property in the suburbs continues, and the exploits of the brigands are everyday more daring. Flores is in a state of alarm, and the Southern suburbs much the same. The milkman who was lassoed and left for dead near Lomas de Zamorra, is, we are happy to say, recovering. Another poor fellow meantime has been assassinated in the same locality; he was going home, about dusk, when a gaucho attacked him and cut him in so horrible a manner that he only survived a few hours, giving some description of his murderer, who, as usual, has not been broken into, but in most cases only a few hens were stolen.

A fashionable French milliner undertook last week the Quixotic errand of going in search of her countrymen, the famous Boutinet brothers. Unfortunately she forgot to discharge some trifling obligations before her departure and this has given rise to unkind observations. If she discover the fraudulent bankrupts, we feel confident she will not return to B. Ayres without them.

The French mail-steamer Navarre, in her last trip from Rio Janeiro took 101 passengers for Europe. This looks like a lucrative trade for the Messageries Imperiales.

In another column will be found some important news from Brazil, which we translate from the *Diario do Rio*. Our native colleagues never seem to remember their next neighbours. We notice the arrival of the Russian Ambassador, Count de Glinka by last French mail, to the Imperial court at Rio.

We have been unable to learn how the auction of Boutinet's distillery went off. The fine quinta, of the late Sor Beribano, on the calle Larga, Barracas, built in the style of a Norman castle, is about to be brought to the hammer, and will probably go, like of Mess. Milbery, for a mere bagatelle.

The Southern railway commence today the earthworks of the 3rd section between Lomas and San Vicente. The navvies are over 600 in number, mostly Basques or Italians. It will be seen in our advertising column that more hands are *required* for the Boca line, the present gang not exceeding 40 men.

The opera Co. gave Lucia di Lamermoor on Sunday night; trial was encored and enthusiastically applauded, Lelmi and Walter were in excellent voice. Norma, on Monday evening, brought out the two charming *prime donne*; we will give a report of the performance to-morrow.

The *Salo* came in on Sunday with mails from the Uruguay; the only news is a subsidy of $1 0 per month voted by Urquiza's Chamber for the establishment of a *Soeur de Charité* school at Paraná. Dr Fernando Arias has been awarded $550 for his services as Assessor in the suit between Mr. Yateman and the State. Dr Vico has been named successor to Dr. Larroque in the rectorship of the Concepcion college. It is proposed to build a new Hall of Justice in that town.

The *Pais* of Montevideo, 15th and 20th ult. contains two judicious articles in defence of Mr. Huding and the R. Plate Bank: it shews that owing to the newness of the arrangements of the Bank, only a small amount was allotted to that Branch, although by the statutes the whole capital (now a million sterling) is responsible for each of the Branches.

A young man, named John Nugent, of Capilla Señor, has died rather suddenly, in town: he was complaining of pains in his bones from exposure to the elements, during the late bivouac of the 'seca,' and being seized with inflammation of the lungs died on Saturday night. On the day previous he went to Moron by train, and on Sunday his remains were conveyed to the Recoleta. He was but 22 years of age, and bore an excellent reputation.

The first number of the *Nacionalista* will appear to-morrow: it is printed in this office, and edited by two well-known lawyers. After the manner of Liverpool and N. York papers it will be vended about the city by 60 little boys, crying out "El Nacionalista only a dollar!" lest our friends suppose there is a sarcasm in the allusion. The mole will soon remind us of the Liverpool landing stage "3rd edition Evening post only one penny."

Passengers from Montevideo say that the last thing thought of, there, is flores. Many people are talking about the probable new President, and others are well pleased with the war, as it is a source of money-making to not a few.

It is strange that the Liverpool steamer Una has not arrived: she was to leave on the 25th Feb. and might have been expected in Montevideo by Easter Sunday (27th ult). We may, however, look for her coming hourly: she brings only a couple of days later than the French mails, but is a good deal in such stirring times on the Northern Continent.

The want of a good steam-service between the two cities of the R. Plate is much felt. The little Cagnaza has 112 passengers 'accommodated,' with close quarters in her last trip hence; and we understand that McLean's favorite pilot-boat sometimes takes 40 to 60 passengers.

ROADS AND BRIDGES

The following is a copy of the contract entered into between the Government and the English Company:—

"The Minister of the Interior, for the Argentine Republic on one part, and Mr. Peter Beare, acting for Mr. Thomas Doeraw, contractor, Bullsponds-road, in the parish of St. Mary's, Islington, county of Middlessx, England; for Mr. George Wells, Civil Engineer and Contractor, No 12, North-street, Westminster, same county; and for Mr. Joseph Emerson Dawson, No 1 Victoria-street, Westminster, Contractor, on the other part. Mr. Peter Beare having shown his power of attorney to act. Agree—

1st. The contractors bind themselves to execute all the Government work in connexion with the roads and bridges, in conformity with the law passed on the 17th October, 1863, by which scrip for bridges and roads can be issued, up to the sum of one million of silver dollars: and these works must be executed in the places and manner pointed out by Government.

2d. The cost of each of the proposed works must be appraised by competent persons appointed by Government, and by the engineer of the contractors, or by their agents; and should no arrangement be come to, a third party will be appointed to arbitrate.

3rd. If, during the construction of the works, Government should wish to suspend operations, the contractors will be indemnified for all expenses, in conformity with Article 5. Should Government wish to make any changes in the plans and undertakings, these plans and undertakings must be carried out, according to the previous article.

4th. The terms being once agreed to, between the Government and the contractors, a fixed date will be appointed for the completion of the work: and should the contractors (except from some unforeseen or unavoidable circumstance) fail in this point, they will forfeit to Government 20 per cent. of the total cost of the work in construction.

5th Besides the necessary expenses of the works the contractors shall receive 10 per cent. on the supposed cost, in order to save them from unforeseen charges.

6th. On the completion of each work, the contractors will advise the Government of the fact, in order that it may be examined and received by them; and should, on examination, the agents of Government have to make any claim against the contractors, the question will be decided by arbitration.

7th. Should the contractors, through revolutions or political disturbances, lose materials, engines, tools, or any article used on the works, the Government will make good their losses, at a fair valuation.

8th. The payment of the works will be made to the contractors in scrips of 'roads and bridges,' issued in accordance with the law of the 12th of October, 1863, at par, with 8 per cent yearly interest, and 3 per cent. amortization. This interest and amortisation will be liquidated in terms with the said law.

9th. Payment, mentioned in the foregoing article, will be made as follows:—

The value of all the machinery, tools, and materials, as soon as placed on the spot of the intended work.

The value of materials, from foreign countries, as soon as landed in Buenos Ayres, or any other port of the Republic.

85 per cent. of the work, according to the vouchers passed by the engineer to the Government each month, and the remaining 15 per cent. until the final settlement.

10th. The contractors are bound to commence work within three months from the time of signing the contract.

Buenos Ayres, March 22, 1864.

P. BEARE.

Approved of in all its parts; pass to the public office of the National Government, so that it may be entered in the public archives, and give the parties interested the guarantee they require. Advise the Minister of this, and let it be published.

BAHIA.

With respect to the exploration of the River Paraguassú, Councillor Amaral, at the opening of the Provincial Assembly, stated as follows:—

The engineers Ladislas Wideky and Trajano Rego, who had been appointed to superintend the exploration of the River Paraguassú, have handed me their papers. These engineers declare that, having examined into the works necessary for the canalization of said river, they find that the cost of these works would never be repaid. They recommend pontoons, such as are used by the military, to be placed at different parts of the river, and they calculated that the expense would amount to 300,000 milreis.

On the 11th ult. 56 packages of brute diamonds were shipped, per steamer, to Southampton. On the 31st ult. the American war steamer Sacramento, Captain H. Woulf, entered the bay of Bahia, from Fayal, having called at Santa Cruz, Teneriffe, and Porto Grande.

The public attention has been much engrossed by the attempted murder, by poison, of an old and rich merchant, Don Jose Antonio Dos Passos. The parties implicated in this scandalous attempt are another merchant, Marez Pinto, a friend of Passos; Passos' nephew; Fortunato Drummond, ex-secretary of one of the public offices; the procurator, Mello; and the apothecary, Galdino These men had destroyed Passos' will and forged another. The whole affair is enveloped in mystery, but the police are making the most active researches.

From the interior news has arrived of the rains having appeared, and repairing the damage done to many of the plantations by the late drought.

On the 11th ult. the well-known dancing-master, Julio Marqueton, died very suddenly. He had resided many years in Bahia.

On the 9th the Carmelite friar, Mansel de Santa Escolastica, departed this life; he was friar of the order, and exclusively devoted himself to teaching Latin in the convent, where his classes were attended by a great number of pupils.

MONTEVIDEO.

The most important news is the amateur performance at Solis theatre by the officers of H. B. M. war-steamer Forte, to come off on Thursday evening in aid of the British and Cavidad Hospitals: 1st the three-act comedy "Still waters run deep": 2nd a comic duet by Messrs Payne and Holloway; 3rd the serio-comic piece "the Toodles": 4th Dixey's Land by a number of the performers, and lastly, "the Clock-maker's hat. The band of the Forte will attend.

The state of the country is fearful, the calamity of war almost fading into insignificance compared to the awful drought. No active operations are reported of the belligerents. The minister of War returned on Saturday from his excursion to Piedras, at which place the Union battalion had just arrived along with Col. Palomeque, who at once proceeded to Canelones. Sor. Perez, Minister of Finance, went in person, same day, to pay the troops. The rebel Manduca and Borjes were carrying terror through the neighborhood of Pan de Azucar, threatening death to all who refused to join them. In the district of Rocha the filibusters have decreed a fine of 100 silver dollars, and stripes, to such Nat. Guards as refuse to pass over to them: a gang under one Cañas seized a poor wounded man and cut his throat; he was named Amarillo and leaves 4 children. Col. Egaña has come to the capital, his health being utterly broken. Capt Juan P. Gonsalez reports having dispersed two bands of rebels at the Arroyo Olimar (Minas), 22nd ult. His force was but 10 men, with whom he killed the leader of the first band, Silverio Galvan, taking 5 prisoners, 8 horses and some arms: he then attacked Muino's gang, killing the chief, taking 7 prisoners, 30 horses and some saddles. On Thursday night 31st.) the alarm of fire was given, and the people rushed out of Solis theatre for it was found that Sor Carillo's shop, next door, was in flames: the police, however, succeeded in getting it under. Sor Brizuela, alias Montecristo, is causing quite a sensation: it will be remembered this character personated Waldino Urquiza with great success at Paraná. In his present visit to Montevideo he has passed off for D. Juan Anchorena, and as he affects the millionaire it is easily understood how his critics assert that he mistook Baron Maua's signature for his own: he has, however, very politely requested the public to suspend its judgment, and hence both the accusers and accused are in a state of suspense.

Colonels Lamela and Nadal have been sent in pursuit of Borjes and Manduca: the former take a large cavalry force with them, but will probably return after ineffectual skirmishing.

A new paper called the 'Iris' is to appear shortly, edited by D. Augustin Vedia. Most of the diligences to the Interior have stopped running, for want of horses, owing to the drought. The 'Reforma' advises the speedy introduction of traction-engines. Colonel Lenguas has resigned his post of Chief of the Staff. Sor. Marmol left Montevideo for Rio Janeiro, by the Mersey: the Brazilian Consul-general for Uruguay, Sor. Franco bore him company. The 'Reforma' states that Captain Bruce is gone to Europe for a steamer: this is doubtful, for he had taken his passage only to Rio Janeiro.

Dr. Herrera, Minister of Foreign Affairs, wrote to the Brazilian Charge d'Affaires, complaining of the organization of filibusters, on the imperial frontier; the latter replied that he had made enquiries and found the rumour incorrect but Dr. Herrera repeats his assertion.

A Frenchman, named Guillaume Irizaga, committed suicide: last year he had attempted his life, narrowly recovering from two deadly stabs: this time he has been more resolute.

Dr. Pedro Fuentes is named member of the Board of Public Instruction.

LATEST FROM BRAZIL.

Almost as bad as Buenos Ayres

The village of Parahyba do Sul (Brazils) is infested by a gang of cut-throats and robbers, who stopped all passengers. These fellows are masked, and go in parties of three or four. One Italian has been murdered, and another man was stopped, but as he only possessed four milreis, he was let go, on condition that when he passed again he should have more money. Their favourite spot for 'sticking up' passengers, is a very narrow part of the road, where there is no escape. Such is the state of alarm, caused by this state of affairs, that passengers make a detour of three leagues, so as to avoid this spot. The victims all declare that the robbers are white men.

Near the village of Telha, Antonio Banito found his wife talking with Capt. Baneto, and suspecting her fidelity, he stabbed and killed her; he also attempted to kill the gallant captain, who, however, escaped, slightly wounded The culprit, after a long chase, was captured by the authorities, but not before he was wounded with a pistol shot

The body of a man, called Jose Francisco, was found in a well, stabbed in 6 places. His wife, along with two men, have been arrested, as concerned in his death. In Iatoba, in the district of Pacutuba, Francisco Baptista was proceeding home with his wife, was attacked by two men, who attempted a brutal attack upon the woman, but some people making their appearance, the villains ran off. Antonio Machado has been killed on his hacienda by three of his slaves, who have since been arrested.

MARITIME

The Spanish brig, Pedro Antonio, bound from Buenos Ayres to the Havanna, has put into Rio de Janeiro, leaky.

The French barque, Jean Bart, bound from Valparaiso to Havre, has put into Rio de Janeiro, leaky.

German Naturalist—The 'Mercantil' of Porto Alegre has the following notice:—"For the last two or three months we have had amongst us a most distinguished guest. Dr. Runholdt Hensen, a celebrated naturalist, commissioned by a Berlin scientific society to make explorations and collect specimens in this part of America. This distinguished savant, whose scientific journey was mentioned in high terms by the 'Ilustration' of Leipsic, has just sent home several skeletons of quadrupeds and reptiles. His activity is perfectly wonderful. From this, Señor Hensen will proceed to Montevideo, and thence to Matto Grosso. It is an arduous and dangerous task to which Señor Hensen has devoted himself—the love and glory of science has been the incentive.

There has been conceded by the Brazilian Government to Carlos Pinto de Finto de Figuerito and Eduardo Jouquino Pereira de Oliveira the privilege, for ten years, of the steam navigation of the river Itabapouna. The concessionaires are bound to run steamers from the mouth of the river Itabapouna up to the port of Lameira.

Theatrical Row—On the 14th of March a disgraceful riot took place in the Theatre of San Paulo. The Chief of Police had issued orders to the effect, that the 'Academy Polka' should not be played by the orchestra, as it gave rise to much disturbance in the pit, which is generally principally occupied by students. On the night in question, some students, delegated by their comrades, demanded the prohibited music, under the threat of not allowing the performance to be continued. The sub delegate of police tried to pacify the noisy fellows, but without the slightest effect, and things proceeded to such a pitch, that the Chief of Police ordered the performance to be suspended, which order was received with loud cries of 'down with the police!' 'turn him out,' &c. The families in the boxes began to retire, as by this time the Chief of Police had completely lost his head, and was incapable of arriving at any resolution, and it was only owing to the coolness of the sub-delegate that the disturbance did not proceed further. The soldiery was placed in the corridors and doors of the theatre; but were sentenced to a glorious inactivity, as the delegate managed to get the theatre cleared without their assistance.

FLIGHT OF A MERCHANT.

On last Saturday the mercantile public was thrown into alarm by the rumor that M. Caumartin, the well known French merchant, had disappeared. The story was, it seems, too true, for nothing has since been heard of him; and on proceeding to break open his desk, a letter was found, dated a week ago, stating that his embarrassments were so serious as to make him commit suicide. It is, however, thought that this was a feint, as he transacted business after that date, and probably escaped from the country. He had resided here over 30 years, and enjoyed a first-rate connexion, which was the case of his involving most of the leading French firms in sums of various magnitude. Liabilities are set down at half a million francs (£20,000), but as yet it is impossible to arrive at any exact details.

Portuguese Royal Mail Company

The Cabinet of Lisbon has just sanctioned the following programme of a mail service between Portugal and her Colonies, under the title of 'Union Mercantil.' There is conceded to the company an annual subsidy of 160,720 milreis. to be distributed in the following manner:—

132,000 milreis for twelve round voyages to the coast of Africa.

18,000 milreis for twelve round voyages to the Azores

10,000 milreis for twenty-four round voyages to the Algarve.

720 milreis for twelve voyages (one monthly), to Fayal, Flores, San Miguel, and Santa Maria.

The conditions with respect to the class of vessel, stations, and number of days to be occupied in the voyages, to be established according to agreement with Government. The capital of the company to consist of 1,350,000 milreis, in shares of 90 milreis each. A dividend of 6 per cent. on the capital employed, to be guaranteed by Government. Government will take 7,522 shares in the company, payable in bonds upon the Company of 'Union Mercantil.' to the value of 619,980 milreis—'Diario do Rio de Janeiro.'

ACADEMICAL EXHIBITION.

On Sunday the 2nd inst. the most interesting ceremony of the distribution of prizes took place in the municipal and parochial school of San Telmo and Concepcion. Early in the morning the people were seen wending their way to the ceremony, summoned to the happy scene by a fine musical band, kindly sent there by the municipal body, and little angels dressed celestially, and gallant boys bearing aloft the colours of their country were seen hurrying alongside of their fond mamas to the establishment of Matilde (the beautiful and learned directress of the school). Before we enter upon a description of the ceremony, we can't bestow too much praise upon the celebrated Quilmes school masters, whose address and activity in welcoming strangers were worthy of all praise The band had now ceased playing, a deadly silence reigned, which was only once interrupted by the fall of the reporter from a chair, which duty had summoned him to mount for the better inspection of the array of beauty which stood before him. Silence restored, Senora —— (unhappily we know not her name) stood up, and with the boys on her right and the girls on the left, and after casting a severe glance on the audience, spoke. It is impossible however to follow the respectable lady through the whole of her discourse; after reverting to the happy event that brought them there, she finished saying, "But I see your impatience; it is just, nay allowable my children; one moment more and you will receive the rewards of your perseverance and industry—and you, madam (turning to the learned directress) the satisfaction of having sternly, though religiously and conscientiously performed the arduous duties to which your career subjects you. The lady sat down amidst great applause, the band struck up the National Anthem, and the distribution of prizes succeeded, which was occasionally interrupted by appropriate speeches from the young ladies, and lively airs from the musical band. Altogether the ceremony went off capitally, everybody seemed pleased except the defeated competitors, who however vowed they would next year wear one of those beautiful medals on their breast.

SPECTATOR.

LOCAL EVENTS.

Deserters. — The 'Nacional' announces the arrival, at San Fernando on Saturday, of eight run-aways from the Oriental army: they came over in a whale-boat

Mr. Wells. As we before stated, the aeronaut will make his first ascent from San Fernando, next Sunday.

Vagabonds. — The 'Nacion' states that 25 bad characters have been condemned to military service: this is the ruin of the country. Better put them in prison.

Peru. — The 'Estrella de Amazones,' published in Mannos, announces the arrival in Lima of Sr. Wornhagem, the Brazilian Minister to Peru. The same newspaper states there exists a deal of bad feeling between the Brazilian Consul and the Peruvian authorities of Loreto.

Cotton—The Parahybano states that Georgia cotton seed has been distributed to 24 planters in Parahyba do Sul.

Indians—A body of some 500 Indians under the command of the Cacique Victorino, from the village of Palmas in the province of Santa Catharina, have made a descent upon the province of Rio Grande. They passed by the Campo do Meio, Gerra dos Antas, and close to the military settlement of Casseros.

Exports. — Except Martin Garcia produce, nothing seems to be shipped from this country. Days elapse without any vessels clearing out with cargo for foreign ports, and should the state of affairs continue any longer, the navigation of the river will be almost suspended by the deadlock of vessels.

On the 2nd inst., only one vessel, the 'Maria,' cleared out with 867 pipes tallow, 97¼ tons bones, 4,000 skin bones.

A question, like that propounded by the Brighton dancing master to Mr. Toots, now arises, "What is done with the raw produce?" but, in this instance, Mr. Toots' answer of boil it is of no use

The Hippo gastromotors.—The society, which was organised in Paris for the purpose of introducing horse flesh as an article of human food, was dissolved owing to the prejudice of Frenchmen against the diet: we are happy to see that an offshoot of that society has taken root in Buenos Ayres if we may judge from an advertisement we see in one of the native newspapers.

$200 reward will be paid to any one who will return a toasted horse (tostado) which was taken away from the cafe.

That intelligent philosopher and observer of mankind, Samuel Weller, Esquire, stated that in the manufacture of mutton, kidney, or other meat pies, the "seasoning" was everything. Here it appears customary to make a barbecue of the animal and roast it whole.

Paysandu.—One of our native colleagues states that on the 9th ult., several people who had been confined since last September, were taken from the prison by Leandro Gomez and murdered, without any trial. One man was lanced to death, another hanged, another shot, and the last had his throat cut The time chosen for these so-called executions was between 10 p. m. and midnight, when the inhabitants of Paysandu were supposed to be wrapped in slumber. This story is, we are assured, a fabrication. Would it be superfluous for our colleague to give his authority?

Mr Michael King—The heirs and creditors of this gentleman, who was murdered in the Villa Luxan, and whose murderer, as usual, has not been taken, nor (we believe) looked after, are required to enter their claims before the 30th inst.; the judicial authorities, however, do not wish this known, for which reason they publish this notice in a paper never seen by Irishmen.

National College—No one has yet been named to succeed Dr. Aguero; three candidates are in the field. Cannon Fiñero, Dr. Larroque, of Concepcion, and Sr. Jacques, late prefect of studies.

Cramps, Spasms, wrenching pains attending an evacuation from the bowels from a dose of medicine, is proof that the medicine thus taken is injurious. It is not the quantity of faeces expelled that bowels a cure. Pills and purgative medicines made of aloes and other drastic cathartics are injurious, inasmuch as purgation from these obnoxious drugs is induced only from the irritation they produce on the mucous membrane. They have no influence on the liver or bile, but are carried to the lower bowels, and by their irritation excite an evacuation. Dr. Halsey's Pills are the only safe purgative to take. Their primary action is on the liver and other secretions, so that instead of being thin and watery, as usual, it is the mucous of the diseased humors which these imperfect pills fail to eliminate from the blood, that causes this watery discharge, and hence when the patient takes cathartics he has to strain without effecting the desired result. A dose of Halsey's Pills will insure a thorough evacuation, this accomplished, no further physic is required.

Gabriel on the Loss and Restoration of the Teeth—The above is issued by Messrs. Gabriel, the eminent London dentists, and as it is written by men who have a high standing in their profession, the work is well worthy the perusal of all who value the preservation of their teeth, and wish to guard against the many and tormenting evils to which those useful members are subjects. Many valuable hints are given throughout the book as to the various means of preserving the teeth and gums in a healthy condition, and of arresting in many cases permanently the progress of decay which may have already set in. The little work is evidently written by men of long experience in their profession, and who are thorough masters of their subject, and as such may be honestly recommended. Extract from the 'Monas Herald,' January 23, 1864:—'As may be seen by our advertising columns, Messrs. Gabriel supply teeth on their patented system, irrespective of distance or climate.'

Watch and Clock Maker, by Special Appointment, to His Royal Highness The Prince of Wales.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more [illegible] or more carefully adjusted mechanism."—Times, June 11 1862.

"A triumph of ingenuity."—Telegraph, March 31 1862.

"A more splendid and elaborately finished piece of machinery we have seldom seen."—Standard, June 11 1862.

"Some of them are of great beauty and if the English watchmakers only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not see the trade entirely in our own hands."—Times, June 21, 1862.

"Ranged around the base of the clock were the watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs executed upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection." Illustrated London News, November 8, 1862.

SAVINGS BANK

BANK MAUA & C°.

No. 103 calle de Cangallo. —

BUENOS-AYRES.

The immense advantages of *Accounts Current* are now so generally felt, and appreciated in the two great emporiums o the River Plate—Montevideo & Buenos Ayres—that there are very few Merchants who fail to keep one at the Bank in which they place the most confidence

The Bank of Mauá & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depositary for their savings.

he sums deposited in that most important institution are daily increasing and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants o all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a *reserve fund* in case of *need, sickness or old age*, instead of spending them in the immoral gambling, in lotteries and other rivolities

he Bank of Mauá and Co. of this city following the example of their firm in Montevideo now offer the same facilities in this city and will open on the 1st October a "Savings Bank" at No. 103 calle Cangallo from 9 a. m. to 3 p. m. on week days, and on Sundays and holidays from 10 a. m. to 12 m. for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a Pess Book in which will be entered the amount deposited and withdrawn.

The depositor is permitted at *any time* to withdraw the *whole* or *part* of the sum deposited. in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the public by the benefit derived from the course of its operations which are regulated on the strictest and soundest principles and always directed to promote the general welfare.

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood,

Buenos Ayres September 19th 1863.

p. p. Mauá & Co.

WILLIAM LESLIE.

CONDITIONS.

1st. The Bank receives at interest any sum from *Twenty five dollars currency or one silver dollar* upwards

2nd. The interest allowed is *six per cent* [6 p%] per annum which is liquidated every six months

3rd. The depositor can at any time retire the *whole* or *part* of the money deposited.

4th. Once the amount deposited exceeds *Twenty five thousand dollars currency, or one thousand dollars silver* the depositor if he wishes can open an *account current* according to the rules established by the Bank.

5th. In case the depositor loses his Pass Book it can be replaced by another on paying *twelve dollars currency*, and advertising the loss in the public newspapers

ENGLISH GRAMMAR SCHOOL,

CALLE LARGA DE BARRACAS

Dor.—Mr. Pongerard, of the London University College.

This Establishment, which from its foundation has been patronised by the principal British families of Buenos Ayres, is an exact reproduction of an English School, where a sound commercial education combined with the acquisition of the French and Spanish languages is imparted to the pupils, and based upon the same system as in all first class European institutions of the kind.

An over-watchful and constant supervision, and a strict observance of order and propriety, are a sufficient guarantee that the morals and behaviour of the pupils are carefully attended to.

The different branches taught in the English Grammar School comprise the English, French and Spanish languages, History, Geography, Arithmetic, and Book-keeping in all its parts, Writing, and Religious Instruction.

Extra branches, such as Latin, Mathematics, German, Music and Drawing, are also taught by special masters.

The situation of the English Grammar School, in one of the most delightful Quintas of the Calle Larga de Barracas, at the very gates of the city, is one of the most healthful and picturesque of the environs of Buenos Ayres.
