REVIEW FOR FREEDOM PACKEE

Since the sailing of the English packet we have been all plunged into the most profitable agitation by one of the most gigantic tragedies ever known in ancient or modern history—the burning of two thousand human beings in the top of the Hotel Cooper.

AWFUL CALAMITY.

TWO THOUSAND PEOPLE BURNED IN CHILE.

The most disastrous affliction hangs at this moment on Chile. The people refuse to describe such a calamity as a fire, because the world's history records no such dreadful catastrophe.

The Company, one of the largest and handsomest chartered companies, continued the most select of the best, sex, of that capital attracted by the full fusion of the moul of Vany.

The English Companies here are doing a very excellent business. We refer to the Northern Railway and the London and River Plate Bank, both of which we are happy to say are doing a much better business as they are attended to.

The Minister of the United States succeeded in saving several lives, and wrote a letter of condolence to the Government.

The walls of the ill-fated church have been ordered to be razed, and it will be some time before it is rebuilt.

It will do either a pack of a cemetery will be opened on that site in order of course a general feeling of indignation is entertained against the clergy, and the most violent attacks have been made on them.

In Argentine affairs we have little to write of interest to the foreign reader. The disturbance in Entre Rios has been quelled by the energetic steps of Urquiza, and in every part of the Republic there is peace.

The revolution in the Banda Oriental still continues. Flores has attacked an important river town called Paysandú, which was repulsed; the fifth general Sanguin has gone up to protect British interests and property.

The English Companies here are doing a very excellent business. We refer to the Northern Railway and the London and River Plate Bank, both of which we are happy to say are doing a much better business as they are attended to.

The foreign colony of Papanua, in this year has a special harvest which we are happy to say are doing a much better business as they are attended to.

The accounts from the camp are truly frightful. In all parts of the camp within 30 leagues of town, the drought has assumed the most alarming proportions.

The particulars of Flores' defeat at Paysandú will be found in another column.

Yesterday evening, owing to the heroic exertions of a French gentleman in Argentina was saved from being drowned. It appears that the man had taken it into his head to have a bath; and to the no small astonishment of the crowd, stepped off the landing immediately under the sign of the office.

The money market. Since the sailing of the English packet, our money market has suffered a slight stringency, which, owing to the right time of rate by the Provisional Banks, has been increased rather than otherwise.

The Northern Railway will be opened to San Fernando, we hear, by the end of this month.

The soldiers who are at present marching the frontier in the present condition of the army, we are told, are in no better a state than the last of February.

We have received a letter, relative to the great Chas accident, which we will publish to-morrow.

Several Irishmen 17 in the Pavan Street, had expired in prison. Carlos Angel, another notorious revolutionist, is in prison, Arretieno expected shortly in Rosario with one or two more.

The Club del Pueblo. The Club del Pueblo, we are happy to say, had sweeping majority.

The children were saved in an unaccountable manner. The children were saved in an unaccountable manner.

LATEST FROM MONTEVIDEO.

The steamer Mersey arrived yesterday morning. There is positively no thing of any importance in the state.

The members of the foreign club are complaining that the directors have not held an annual meeting.

The Mercery was expected on the 22nd. The Mercery was expected on the 22nd.

MUTUALITY CAPTURED OF THE ALABAMA.

We read in one of the Havana journals that the fast-finned Alabama has been captured by the United States war steamer San Jacinto.

Shortest passage on record. Sailed from the Company's buoy, Liverpool, 3 p.m., Nov. 11.

The weather throughout the passage in the Atlantic was generally good with the exception of a tempest experienced immediately after leaving Montevideo.

At the beginning of the skirmish in the infancy of the Lengua battalion, who had come from Salto, were landed on four squares before the port, and were waiting for the shelter of the town.

The fire broke out in the night, and the fire broke out in the night.

PRODUCE.

During the fortnight there has been a good deal of activity in our produce market. The demand for dry hides seems to have slackened since the new year.

The sales during the fortnight have been less than previously, which is easily attributed to the fact that the arrivals from the camp during the same period have diminished.
