**SAVINGS BANK BANK MAU & CO.**  
No. 103 calle de Cangallo. — BUENOS-AIRES.

The immense advantages of Accounts current are now generally felt, and "precipitated in the two great emporiums of the River Plate—Montevideo & Buenos Ayres—that there are very few Merchants who fail to keep one at the bank in which they place the most confidence. The Bank of Mau & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depository for their savings. The sums deposited in that most important institution are daily increasing, and already reach a very large amount. These advantages have not hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, before or after age, instead of spending them in the frivolous gambling, in lotteries and other frivolities. The Bank of Mau & Co. of this city following the example of their colleagues in Montevideo, has adopted the same plan, and is offering to the public the following conditions.

**CONDITIONS.**

1. The Bank receives at interest any sum from Twenty five dollars currency or one dollar upwards	5 p. ann.
2. The interest allowed is six per cent [6 p. ann.] per annum which is liquidated every six months	6 p. ann.
3. The depositor can at any time retire the whole or part of the money deposited	
4. Once the amount deposited exceeds Twenty five thousand dollars currency, or one thousand dollars silver the depositor if he wishes can open an account current, according to the rules established by the Bank.	
5. In case the depositor loses his Pass Book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

The want has long been felt of an establishment wherein the frugal and laborious citizen might deposit his savings, so as to incur no risk, and reap at the same time a good return. This institution is calculated to answer such a purpose by treating the benefits of the establishment to the humblest classes. Public attention is, therefore, specially called to the manner of subscriptions, and the insertion of funds, according to the rules of the constitution. **LA PREVISORA ARGENTINA** will receive subscriptions as follows:  
1st. On one's own life, in shares of \$5 silver each. These subscriptions liquidated at any time, at the subscriber's time and option.  
2nd. Without loss of capital by death of the insured. Subscribers will be entitled to compound interest on their subscriptions, and the proportional interest for the death of other shareholders in their Class, whose capital, however, is returned.  
3rd. With loss of capital and interest by insurer's death. All shareholders of this class shall gain compound interest on their subscriptions, besides a proportional part of the capital and interest of all who die in their Class.  
All these subscriptions may be paid weekly, monthly, quarterly, half yearly, or yearly.  
The capital of the Company shall be invested only in landed property (finca) and with the greatest security.  
The Board of Inspection, composed of subscribers, shall have charge of all the operations of the Company.  
For further particulars, apply at the Co's office 87 calle S. Martin (above) between the hours of 11—4; prospectus given on application.

The clearing time being now over the inventor of the Anti-Scab Specific for curing Omitaneous Diseases in Sheep, and all domestic Animals, begs to inform the Estancieros that it can never be applied to such effect as after shearing, when it not only cures the worst cases, but acts as a preservative against the disease. The simplest method is bathing the animal, whether sound or affected, in the manner prescribed by the instructions. This specific has been already found an effective remedy to insects [Dermatophytes]. Numerous certificates may be seen showing the high results of the Specific throughout America. Its low price places it within the reach of all, 25 p. selling for 500 or 1000 Sheep. It contains an incense quality, and is sold at the above Depots.

**ENGLISH GRAMMAR SCHOOL, CALLE LARGA DE BARRAQUAS.**  
Directo: Mr. PONGERRA, of the Legion of Honour, and English Editor.

This Establishment, which from its foundation has been patronized by the principal French families of Buenos Ayres, is a great reproduction of an English school, and a sound educational institution combined with the acquisition of the French and Spanish languages. It contains an extensive library, and is open to the public, and has won the approval of all the first class European institutions of the kind. An ever-attentive and constant supervision, and a strict observance of order and propriety, and a sufficient guarantee for the results and happiness of the pupils are carefully attended to. The different branches taught in the English Grammar School comprise: Grammar, French and Spanish languages, History, Geography, Arithmetic, and book-keeping in all its parts, Writing, and Rhetoric instruction. Extra branches, such as Latin, Mathematics, German, Music and Drawing, may be taught by special arrangement. The situation of the English Grammar School, in one of the most delightful quarters of the Calle Larga de Barracas, at the very gates of the city, is one of the most beautiful and picturesque of the environs of Buenos Ayres.
