Great and Useful Invention.
 No more Mortality for want of Water.
 Sore wealth to Estancieros.
 By the Robert Apparatus.
 Being notations the immense injury occasioned by the scarcity of water during the long (scarcy) that affect the country of Buenos Ayres, I have determined to dedicate to the Estancieros an Apparatus at once simple and in- fallible for procuring, at much water as they may require.
 120 Bordenas per hour (at 30000 fathoms) is procured with my apparatus, without the aid of any time in getting out of order.
 This machine is worked by our horse and in a day's work can give 40 Bordenas; that is to say, sufficient water for 20, 000 head of cattle.
 By these figures can be calculated the immense advantages gained by its use.
 Another advantage is the facility of putting it together and taking it to sea, so as to be able to transport it to any place where it may be necessary to use it, either for watering purposes or others.
GREAT MODIFICATION.
 I have made an improvement in my Apparatus, applying a new system which reduces the necessary force two thirds, giving it at the same time more capacity.
 Those interested can see it at Calle Moreno, No. 346 (Henerria, Paris). One site inspection of the Apparatus will prove to them the superiority of it over any other.

Unfailing Cure
 for Scab and Footrot in Sheep and every kind of disease in horses and other animals.
Calvert's Phenylene and Carbolic.
 In addition to the satisfactory account we have received of the success of this specific from all parts of the world, its application to the cure of Sheep, we are glad to find that it has been equally successful in healing scabs and other diseases in horses. In fact, it is a specific for all kinds of diseases in domestic animals.
