MEDICAL REGISTER

Is there any benighted individual in this great city who is unwary of the fact that we have a Medical Board?

If we do not see any tangible results in return for their salaries, let it not be argued that the members of the Medical Board enjoy a sinecure at the public expense...

It is, therefore, clear that the Board of Health is the most useful body of men in the country, although their labours are, through a sense of modesty, concealed from public view.

Remembering foreigners, above all, have strange prejudices, we regard it as a duty of the Government to appoint a special committee to look after sanitary arrangements...

It is said that Mirra, the French banker, began his fortune by publishing a daily report of those who died and to doctors who had attended them...

It would be well also to appoint a committee to look after the interests of the public, as to public health, the idea is ludicrous...

appreciated in the present age, and there are even some persons in Buenos Ayres who hesitate not to call the members a pack of old fools and an incubation of the public. How ungrateful!

RIVER PLATE MAGAZINE

History of the Argentine Confederation—This is a continuation of an article which appeared in the former numbers, and is now brought down to the death of Urquiza.

Travellers by Ocean steamers must have been struck with the universality of some of the pictures which adorn the saloons of the steamers: one in particular will, no doubt, have attracted their attention—a rucky bluff projecting into the sea, its feet level with the sea level.

As the Minister has not disclaimed his connexion with the perpetrators, it is to be supposed he winks at, or approves of them, and his political adversaries, possibly, scruple not to make him an accomplice.

The little piece of scandal we allude to is extracted from the "Nacion Argentina."

We have been all horrified to learn that the Justice of Peace forwarded into the Government showing over 600 votes in this district (25 de Mayo) in favor of the Club Libertad (Grados).

On the 23rd ult., whilst a group of people was standing in a shop in San Pedro, some rockets were fired off, when that excitable Irish party, Mr. James N called out, "Viva el Republicano!"

At the present time, the "Black Man" is not the bogey with which we were frightened in our infant days, but is an article on the negro race, by Hor Burmeister, who, much as we esteem him, will worth reading, if for nothing else, to see the extraordinary pains taken by theorists in pursuing their researches.

Her feet and hands so comely, You'd make a cradle of each shoe, a typographic point of view, the magazine has been very well got up, and together the editor deserves great praise and support.

COUNTER FORGERIES

Dr. Acosta accuses the public, by his indignation at the false despatches sent to Cisneros and Dolores. It seems, however, that forgery was employed on both sides, and if one is held up to infamy, there is no reason why the other should be suffered to play the Pharisic.

Madame Briol had a great triumph on her benefit night (Wednesday) in the role of Violetta. Although not fully pleased with the performance, she was highly complimented on her acting.

The opening scene was much applauded, for the role of Lemi gave the finishing song with excellent taste. The play was well received, and the fair artist looked and sang the character, such as Verdi could desire, in the refrain "Greece defende."

On the 23rd ult., whilst a group of people was standing in a shop in San Pedro, some rockets were fired off, when that excitable Irish party, Mr. James N called out, "Viva el Republicano!"

It is very annoying to find the curtain is not raised until past nine o'clock. The hour fixed, 8.30, is late enough.

The postponement of the Southern Railway immigration was hardly necessary, seeing that yesterday was a very fine day. The directors, however, shared the general opinion that we were going to have a heavy storm, and the excessive heat seems to indicate a storm probably before Monday.

mix themselves up in the political squabbles of this country? Most of us know from experience what severe headaches generally follow an election in Great Britain—headaches not, on these occasions, caused by wine, ale, or spirits, but by hard knobby blackthorns, and it is to be all wondered at that the natives of this country are every bit as excitable on political subjects as we are ourselves.

TRIBUNA TRICALS

It will be remembered that some months ago Mr. Patrick Wynne of Zurate prosecuted a man named Vasquez for sheep-stealing, and published the case in this paper.

We have the pleasure to inform our readers that the case is now come to a conclusion, and the defendant, Mr. Vasquez, has been released from "durance vile" on the guarantee of good bail.

We call attention to a new play in Mr. Patrick Wynne's case against Vasquez for sheep-stealing. Last week we incorrectly called that defendant Castex, he being a half brother to that family.

THE AMERICAN WAR

By the arrival of the Hannamita at Southampton we have New York papers to the 9th instant. The following is a summary of the leading details of their news.

There is no important news from General Sherman's army. A detachment of Confederate cavalry drove in the Federal pickets at Pilot Hill, near Fairfax Court-house, on the night of the 6th inst., but retreated after exchanging a few shots with the skirmishers sent out to meet them.

Despatches from Cumberland, Maryland, state that the Confederates in West Virginia are very active. The garrison at Gettysburg was surrounded yesterday by the Confederate army, which has driven the Federals out of Burlington, Cumberland, Maryland, is threatened with immediate attack by Fitzhugh Lee and Reser.

The Government having just learned, with the greatest displeasure, that the signature of the Minister has been forged in a fictitious document, passed to various justices of the peace. And as the dexterity displayed in this case may be employed for some other ends, the Government has resolved that all drafts drawn by this Government will be presented by the treasurer, Don Emilio G. Roselli, or by the first officer of the Treasury, Don Miguel Luca, and shall be only paid to either of them.

The Commissioner in-chief of the Southern frontier of Mendoza has presented to the Government a document which ought to be printed in letters of blood, stating that unless a supply of women are sent to Fort Bulnes cannot put a stop to the depredations which are daily taking place amongst the Indians. The police of Mendoza are accordingly taking steps to seize and send to the frontier all women of Mendoza who are guilty of excessive drinking habits, and of the poverty. The Commandante surely cannot have studied human affairs to any good purpose, else he might know that the introduction of women into a frontier, he may find it well to peace and quiet. As well put a lighted match into a keg of gunpowder.

The Bank of Mau & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depository for their savings.

The sums deposited in that most important institution are daily increasing and already reach a very large amount.

These advantages have now hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, and thus saving the cost of spending them in the immoral gambling, in lotteries and other frivolities.

The shearing time being now over the inventor of the Anti-Scab Specific for curing Cutaneous Diseases in Sheep, an ill domestic Animal, begs to inform the Estaciones that it can never be applied with such effect as after shearing, when it not only cures the worst cases, but acts as a preservative against the disease.  
The simplest method is bathing the animal, whether sound or affected, in the manner prescribed by the instructions.  
This specific has been already found an effective remedy for insects (Garrapatas).  
Numerous certificates may be seen, showing the high repute of the Specific throughout S. America. Its low price places it within the reach of all, 2/6, sufficient for 500 or 1000 Sheep. It contains no poisonous quality, and is sold at the above Depot.

**ENGLISH GRAMMAR SCHOOL,**  
CALLE LARGA DE BARRACAS

**DR. M. P. PONGERARD, of the London University College.**  
This Establishment, which from its foundation has been patronized by the principal British families of Buenos Ayres, is an exact reproduction of an English School, and a sound commercial education combined with the acquisition of the French and Spanish languages is imparted to the pupils, and based upon the same system as all first class European institutions of the kind.  
An over-sightful and constant supervision, and a strict maintenance of order and propriety, are a sufficient guarantee that the mercantile education of the pupils are conducted in the best manner.  
The different sciences taught in the English Grammar School comprise the English Language, French and Spanish languages, History, Geography, Arithmetic, and Book-keeping in all its parts, Writing, and Mathematics Instruction.  
Extra branches, such as Latin, Metaphysics, Grammar, Algebra and Drawing, are also taught by special masters.  
The situation of the English Grammar School, in one of the most beautiful quarters of the Calle Larga de Barracas, at an early stage of the city, is one of the most beautiful and picturesque of the environs of Buenos Ayres.  
For particulars apply for prospectuses at the Standard Office, Calle de la Prudencia No. 80.
