PRESIDENT MITRE'S SPEECH

It is an admitted fact that the inauguration was one of the greatest and most important functions ever witnessed in Buenos Ayres; it is equally certain that the President's speech was a brilliant and graceful discourse, worthy of one who is to be met on an equal footing with the great nations of the world.

When we remember how much was made of the President's speech at the previous celebration of San Fernando, we must conclude that the present silence is only attributable to the eloquent position of Gen. Mitre respecting Queen Victoria and the English nation, which were unpalatable to our republican journalists.

The Argentine patriot is it just as well that Englishmen know that the President is a staunch friend to English institutions; and that the English nation should not be deceived by the reports of our newspapers.

EDITOR'S TABLE. The French Consulate yesterday was nearly done up. All the logs in the office were called into requisition, and still there was a pile of 'Standards' to be sent off.

IMPORTANT DISPATCH. Argentine Consulate, Liverpool, Jan 22, 1864. To the Minister of Foreign Affairs.

1862, cargoes: salt 3, coal 12, bulk 11, assorted 20—total 40 with 3/8 passengers. 1863, cargoes: salt 15, coal 16 1/2, bulk 11, assorted 25—total 60 vessels with 463 passengers.

the political crisis. Salted ox hides are firm, the imports for 1864 being 465, 830, or 85,770 over preceding years prices are 1 penny lower than 1863 but indicate a rise, owing to the drought in Buenos Ayres and war in Santa Oriental.

It is worthy the attention of Government that the farmers change the place of branding from the horse to the other part of the body, for this would improve the salted hides a penny or two per cent.

The demand and scarcity of cotton has caused an increased demand of wools. I am happy to announce a new market for Jibóni Hosiery. The Mitre-vician Committee, here represented by Mr. Pissolun has received fresh orders from Messrs. James Gordon and Co. who have already disposed of over 300 tons.

A new and just enactment has come into force in London, respecting trade marks, imposing a punishment of two years' penal servitude and fine on all who forge such marks, and a fine of £5 on persons selling articles with the marks of another.

The Saintonge left without being stopped, although it was confidently predicted that Mr. Marmol would detain her. We wish the poetic and talented Minister a kind farewell, and hope that he will make himself more at home in Rio Janeiro than he was in Montevideo.

We have received a letter from Rojas, flatly contradicting the reported invasion of bulls, which we published under false information. No Indians, no natives or foreigners in arms, no disturbance; thank God.

We are informed that the sum handed over to the American Minister for the White family was 359, 000 dols. The native papers inaccurately gave it as 300,000 dols, which induced our error.

Starting News from Barracas. Our readers who have been now accustomed to read the most astounding news from Fray Bentos, and even at times distressing intelligence at Rosario, will probably be prepared to hear the alarming state of Barracas.

verging her into a sort of floating baraca; or better still, knock her into a temporary sailors' home.

The family of ex-President Berro has, during the last year, suffered some severe losses. It had first to lament the death of a beloved child; afterwards the loss of that estimable youth, Don Alberto Jackson.

Death of Don Cayetano Berro. The family of ex-President Berro has, during the last year, suffered some severe losses. It had first to lament the death of a beloved child; afterwards the loss of that estimable youth, Don Alberto Jackson.

This last event was as much owing to the attitude taken by Flores and his followers against his brother as to the death of the young man. He had been in the suburbs, the rebels occupied on the shores of the Berro family, where Don Cayetano was then living.

Now the question is being discussed which country possesses the breed best adapted for giving remunerative results. The introduction of the English pedigree sheep for the purpose of crossing, although a great feature in German farming, has had no great influence on the breeding rules of Germany, as it has been found on trial, that they do not cross well with the native animals.

In 1771, when the importance of the subject was known, the Saxons sought advantage to increase the number of the first flock, purchasing more in Spain, but they did not turn out as was expected.

Buenos Ayres British Clerks' Association.

The ordinary half-yearly general meeting of this association was held (evening) last night, on Tuesday (previous with the 8th inst., in the Reading Room of the British Library.

After a few preliminary observations from the Chairman, the Secretary read the following: The Buenos Ayres British Clerks' Association was organized on the 1st of August, 1884.

SALES LIST.

The province of San Luis has been the scene of another Indian invasion on the 23rd ult. The province of San Luis says—that, at 4 a. m. on the 23rd, a body of between 20 & 30 Indians invaded an island in this partido...

Three hours afterwards, the Governor organized a body of 50 national guards infantry of the 20th and 30th regts of the line which were in pursuit of the Indians...

THEIR'S! THEIR'S! HOOL WARRIENS!

On Thursday evening of burglars, armed with false keys, contrived to enter a house in Calle Bolivar, between Chilli and Independencia, belonging to Sr. Carralho, a Portuguese resident.

In the public road, called Chacabuco, the number of shareholders has been diminished by 4, and of shares by

14 since last general meeting, and the committee regrets to have to add the contemplated retirement of 4 more shareholders holding an aggregate of 33 shares.

The best thanks of the committee, and the members generally, combined, to be conveyed by the Messrs. Mallal for their unvarying interest in the welfare and progress of the society, and by the Library Committee for the gratuitous use of their rooms.

The continuous and recent alarming depreciation of our Paper Currency, and the consequent effect upon the operations of the Society, render it an incumbent duty upon the committee, to invite your serious attention to this evening to the desirability of converting the capital of the society into gold and the institution of the specie shares and subscriptions, under such conditions as may be deemed prudent.

The following is a copy of the balance sheet, extracted from the books of the society, at the termination of the half-year, and duly verified by the auditors: To cash account, \$8,698 0

Your Committee, thro' the medium of this Report, would again earnestly exhort those young men who have not yet joined the Association to make them selves acquainted with its working, and the advantages it offers to them.

By share ledger acc. \$323,945 0 Following the amount of previous year's interest, the following explanatory remarks: Interest account, and fines, have to be added produced a total of 10,647 74 lbs.

In concluding this Report your Committee trusts that the management of your interest during the past half year, will not give you any cause for complaint, and will be considered with satisfaction.

Buenos Ayres, 3th March 1884.

The adoption of the report and accounts was proposed by Mr. Forrester, seconded by Mr. Muir, and carried unanimously.

An animated discussion then followed upon the currency question, and the desirability of instituting specie shares and converting the existing capital into specie.

The proceedings terminated with a vote of thanks to the Chairman.

ON CHANGE.

March 12, 1884. Patatoes, notwithstanding the great effort which has been made to drive them up, were very cheap. They opened at 22 1/2, were forced up by the bulls to 29 1/2, but subsequently receded to their opening figure, at which price they closed weak.

A large sale of wheat was effected to-day at \$100 per fanega; the wheat was not to say the best. Owing to the constant arrival of wheat from Santa Fe and other parts, this article is falling and as for maize, it hardly pays freight.

The immense amount of cargo discharging, both in the outer and inner rivers, makes a security of lighters, many merchants complain of the great delay in loading and unloading vessels from this cause. The fact of the matter is, that when the Great Southern Railway begins to receive cargo here there will not be sufficient of lighters, as it is owing to the heavy imports of the Western Railway the whole commerce of the place is inconvenienced.
