Great and Useful Invention. No more Mortality for want of Water. Sure wealth to Estancieros. By the Robert Apparatus. Being notorious the immense injury occasioned by the scarcity of water during the long (seca) that afflict the camps of Buenos Ayres, I have determined to dedicate to the Estancieros an Apparatus at once simple and infallible for procuring as much water as they may require.

120 Bordaceas per hour (it seems fabulous) is procured with my apparatus, without fear of at any time its getting out of order. This machine is worked by one horse and in one day's work can give 4-1/2 Bordaceas; that is to say, sufficient water for 20,000 head of cattle. By these figures can be calculated the immense advantages gained by its use. Another advantage is the facility of putting it together and taking it to pieces, so as to be able to transport it to any place where it may be necessary to use it, either for watering purposes or others.

GREAT MODIFICATION. I have made an improvement in my Apparatus, applying a new system which reduces the necessary force two thirds, giving it at the same time more rapidity. Those interested can see it at Calle Moreno, No. 346 (Henerado, Paris.) One sole inspection of the Apparatus will prove to them the superiority of it over any other. ROBERT. j 20. 2 m.

CAUTION TO SHIPMASTERS.

Dangerous navigation at Martin Garcia. Captain Postow, of the English brig Tyne, makes a serious complaint of the perilous and neglected state of the Martin Garcia channel.

The monster 'pic-nic' is the talk of all town. The affair passed off very well, with the exception that some one forgot the mustard; but as every one was in good humour, the want of this most necessary of ingredients was almost forgotten.

The English packet, we hear, will take home this trip many well known residents, with their families. We wish them all a pleasant voyage and speedy return.

The latest novelty going, is the new dried fish business, which the 'Tribuna' proposes, in yesterday's number. The editors of that 'piscine' journal state, that it is a most scandalous shame, with the rivers full of fish, we do not supply all Europe with a species of South American dried cod.

During the Irish famine a coroner's jury had the courage or temerity to return a verdict of wilful murder against the English prime minister; we should like to see something of the kind in B Ayres, and have the Municipal and Board of Health put in the stocks, for aiding and abetting in the wholesale depopulation of the city.

Many people have been stricken down by fever, within this last fortnight, and the heat is set down as the cause; but the thousand foul vapors and miasmas, which assault our senses at every street corner, are the artillery of death, sweeping down battalions.

Revolution made by the O'Mill Government, whose expenses figure in the accounts of Correa, and were paid to their wives, without any receipt or note being taken of them.

estancias, without even giving a receipt. January, 1863.

General contributions forced from the Catamarqueros, by Correa, Lolo and Maubasin, for the supply of three armies, of 1000 men each, in Tucuman, Salta, and Santiago: no receipt given. 70,000 head of cattle, including cows, horses, mules, and asses.

6th. Assassination of Commandante Viga, in his own house, and having given a ball to the Salta officers. The Buenos Ayrean press accused Don Jesus Maria Espeche, Commissioner of the Catamarca Government, of this crime. March 13th, 1863.

10. Commandante Quiroga, of the port, lassoes a man, and drags him along until he is dead. Dr. Bambiche, being disgusted with this proceeding, is pursued by Quiroga, and killed with his own hands. June, 1863.

11. Official and treacherous murder of a German doctor, in the same department, by the same Quiroga, June, 1863.

12. Prodan Nieva, comandante of the squadron, and agent of the Government, in order to gain the elections, assassinated, in Kuman, the Juez of Mulqui, at the voting table, staining with his blood, the registry of votes. July, 1863.

13. Commandante Castro de Pudre Blanca assassinated, with his own hand, his uncle, Don Gregorio Castro. Eight days afterwards he presented himself as elected Deputy, to vote for Maubasin. August, 1863.

14. Elections carried by armed force in all the departments, and protests against the elections passed to Government. August, 1863.

15. Election of Governor Maubasin, by five assassins, two convicts, and the Commandantes of the Departments, who, according to the Constitution, could not be elected Deputies. Aug. 31.

33. The wheat crops in Capayan, Porman, and other places destroyed, without any reason. Dec. 1863.

34. Disobedience of Governor Correa in neglecting the orders of the National Government. July 1863.

37. The Government seizes a private printing press, and violates the right of citizens' houses. 7th January 1864.

It may be recollected that during the Russian war the Allies, finding the capture of Sebastopol a rather tedious and difficult matter, various propositions were made to Lord Raglan and General Polissier to blow up the place, set it on fire, cause an artificial earthquake; but amidst the diversity of plans and projects for the destruction of the Russian fortress, there was one which attracted particular attention—namely, to poison the air by means of balloons filled with noxious gas, and thus make a clean sweep of every living being in the place.

So long as we all have our health and little need for the doctor, we foreigners endure grievances which Argentines themselves are the loudest in complaining of, but the very last to reform; but when, owing to the scandalous negligence of either a public body or its employees, the very blessings of Heaven are converted into pests.

What municipal is there who allows his family to drink river water, or ever even attempted to have it analyzed. Has the shocking disgraceful state of the public cemetery called the Recoleta ever been discussed, or any remedy proposed to save the ashes of our friends and relations from the unchristian treatment which is daily occurring.

With the city in such a lamentable state, it is to be wondered that day after day the mortality increases, and half the women in the city are in mourning. Verily the dirtiest and most filthy city in the world is Buenos Ayres; it beats Constantinople hollow.

It is high time that something should be done, for if we go on as we are going there are doctors who predict the city will be decimated by typhus fever. We have waited long enough for the municipality; they will do nothing probably because on every death they make forty paper dollars; but we demand of Pres. Mitre to afford us some relief in an effete body such as the Municipality should be abolished, and a committee of active men employed to look after the health of the city.

38. The accounts of Correa are presented, and amount to \$2,000,000 in nine months, plain cotton caps having been charged at 8 dol. 2 ris—not one real having been paid to the officials, and no receipts given for contributions.

away, instead of being left lying about the stalls.

Clean water should be supplied, no matter at what cost, and whether Dr. Tejedor or Mr. Coghlan lost the plan or not, others should be made, and the citizens freed from that perilous stuff called river water.

The water-closets should be under the supervision of regular inspectors; some of the finest houses in town are unfit for residence owing to this horrid nuisance.

LETTERS FROM MONTEVIDEO. The 'Reforma' of the 15th and 16th contains some particulars of the movements (2) of the belligerents.

Colonel Ezaña writes from the Puntas de Yi, 10th inst., as follows:—'Since December 29th, we have been constantly marching to no purpose: yesterday and to day we made forced marches, never unsaddling our horses, but these wood-rangers (the rebels) not only decline fighting, but keep clear of our skirmishers.

Letters from Salto, 8th inst., reports that the camps are in a deplorable condition, both from the awful drought, and the numerous bands of marauders: the latter are set down as Flores' partisans, but in reality rob and murder on their own account, having their rendezvous in the woods, and carrying terror throughout the camp.

Brigands infested Mercedes (9th inst.), and one fell into the hands of the police. Waldino Urquiza and his corps (150 men) were to leave for Paysandú, in a sailing vessel, on the 10th. Caraballo and 300 rebels appeared at Puntas Esteban on the 7th. The Oriental army passed Pescado on the 9th, and Flores crossed the Yi in direction of 'aso Torres, arriving at Carpinteria on the 10th. The troops gave up the chase, and were about to return to Santa Lucia chica.

A French Basque, named Thomas Elberre, and a Spanish 'mercachife,' were assassinated at the house of the former, near Guadalupe, on the 10th inst., by a band of ruffians wearing hats with the initials of Flores' escort.

What municipal is there who allows his family to drink river water, or ever even attempted to have it analyzed. Has the shocking disgraceful state of the public cemetery called the Recoleta ever been discussed, or any remedy proposed to save the ashes of our friends and relations from the unchristian treatment which is daily occurring.

down Calle San Martin, he stumbled over an ugly mutilated pile of paper dollars; he was about to pick up the greasy pile, when suddenly recollecting that ounces were 47, he kicked the obstacle into the street, where it was soon trampled by the horses, &c.

Highway Robbery.—Two nights ago, so says the 'Pueblo,' a gentleman, when riding on the road to Las Flores, was attacked by three Gauchos, knife in hand, who robbed him of his horse and clothes, leaving him in what Theodore Hook would call a 'birth-day suit,' to find his way to the nearest quinta. President Mitre, in his late eloquent speech, mentioned the dangers that, but a few short years ago, beset the traveller from London to York, arising both from beastly roads and the gentleman of the pad who drew their revenues from passengers.

Montevideo.—Early on the morning of Monday last, three covered ambulances, waggons entered Montevideo with wounded troops from the army in the field.

One firm in Buenos Ayres advertises for sale, in different parts of the camp, 105,000 sheep, in lots varying from 2,000 to 20,000, so that all classes of purchasers can be accommodated.

The 'Greatest Plague in Life'—The 'Nacion Argentina' has the following article on peons, which we humbly offer as a sop to Cerberus, and the outraged feelings of some of our country folks. After stating how difficult it is to obtain servants, either good, bad, or indifferent, it says:—'We know several families of eight or nine persons, who remain with folded hands, and rather than go as servants, will live on charity. Their constant complaint is that foreigners are taking the bread out of their mouths. But this is how the case stands:—The foreigner, as soon as he lands in the country makes a point of looking for work of any kind at once. The foreigner is sober, hard working and active, whilst our countrymen are generally drones and lazy. If a native peon be engaged, he spends the greater portion of his time in sucking mate, taking siesta, or rolling up his eternal cigarette. The foreigner, on the contrary, breakfasts early, and works through the whole day. The former is amusing himself whilst the latter is working, and so in all classes of domestic labour.

Great News for Sheep-farmers.—As the rains intended for the Southern States of America have been stopped from going to their original destination by the British Government, they are likely to be sold cheap. We would advise our camp friends not to allow this opportunity to pass unimproved. Great care has been bestowed upon their breeding, and the lucky purchasers will be well repaid for their outlay, if not in wool, by being able to fleece their neighbours in such a complete manner that no Argentine Juez can punish them.

ON CHANGE. March 17th. Patacons are jumping up and down like a piece of India rubber; they opened to-day at 29 5/8 but the bears got possession of the speculation rail, and notwithstanding the efforts of the bulls down came specie. At half-past one o'clock Patacons were selling at 29 5/8, but in half an hour afterwards they closed weak at 29 1/8. The much talked of meeting at the Bank did not come off, and people say that there is a split up in a certain quarter. Without saying anything unnecessarily severe respecting the Provincial Finance Minister, Sr. Domínguez, we feel bound to remark that it is generally believed he is not the proper man for such a place. The present monstrous price of specics is mainly attributable to the divisions and contentions between the ministers, for there cannot be the remotest doubt as to the beneficial effect a resumption of the monthly burning would cause in our money market.

The report that Minister Gonzalez is about to make a loan of five millions silver dollars, seems to be incorrect, as it is not at all probable that the loan would be taken as long as Article 28 is in 'statu quo.'

The plain fact of the matter is, that henceforth it is essential Finance Ministers adhere more strictly to their engagements, and carry out the law, no matter at what inconvenience. When the last emission of paper was made the Governor of this country gave the most solemn assurance that it should be redeemed by the burning of the extra duties. To make the matter still more binding, a law was passed; and yet in the teeth of all this the burning has been suspended, although the extra duties are collected. With such facts fresh in our memory, he would indeed be a reckless financier who would attempt to make a loan in this market. The Provisional Government is even more to blame than the National, for when extraordinary expences were incurred by the latter in subjugating the Chacho, Sr. Domínguez should have been the very first man to have come

SAVINGS BANK
BANK MAUD & CO.

No. 103 calle de Cangallo. —
 BUENOS-AYRES.

The immense advantages of Accounts Current are now so generally felt, and appreciated in the great establishments of the River Plate—Montevideo & Buenos Ayres—that there are very few merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maud & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depository for their savings.

The sums deposited in that most important institution are daily increasing and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness or old age, instead of spending them in the immoral gambling, in lotteries and other frivolities.

The Bank of Maud & Co. of this city following the example of their Buenos Ayres September 19th 1863.

ENGLISH GRAMMAR SCHOOL,
 CALLE LARGA DE BARRACAS

Do. Mr. Pongeraud, of the London University College.
 This Establishment, which from its foundation has been patronized by the principal British families of Buenos Ayres, is an exact reproduction of an English School, where a sound commercial education combined with the acquisition of the French and Spanish languages is imparted to the pupils, and based upon the same system as in all first class European institutions of the kind.
 An ever-attentive and constant supervision, and a strict maintenance of order and propriety, are a sufficient guarantee that the morals and behaviour of the pupils are carefully attended to.
 The different branches taught in the English Grammar School comprise the English, French and Spanish languages, History, Geography, Arithmetic, and Book-keeping in all its parts, Writing, and Religious Instruction.
 Extra branches, such as Latin, Mathematics, German, Music and Drawing, are also taught by special masters.
 The situation of the English Grammar School, in one of the most delightful quarters of the city, is one of the most beautiful and picturesque of the environs of Buenos Ayres.
