Discovery of splendid Treasures California outcome by H. Ayres The Camps turned into Gold Fields

Two Millions Dollars Surplus in the Treasury The provincial Finance Department has favoured us with the official returns for 1863...

The total area is 8459 square leagues or about 46 millions of acres, being much larger than England, and more than double the superficies of Ireland. This includes all the camps settled on a large portion (four-sevenths), whereof is held by Government, or rented on squatter's right (enfiteusis)...

As an instance of the prodigious and rapid increase of value in lands, we find the 'Contribucion Directa' rose 140 per cent. from 1862 to 1863, although the rate was the same (3 per mil.) In 1861 at 2 per mil, it yielded less than one-third of the actual return.

Moron, 1150 per cent.; Arrecifes, 700 do.; Ranchos, Barracas (S.), and Lomas de Zamorra, 600 do.; Vecino, 400 do.; Saladillo, Pila, San Justo, and Quilmes, 300 do.; Mar Chiquita and San Pedro, 250 do.; Chilivieja, Zarate, and Aguadana, 200 do.; Giles, Las Flores, Tuyu, and Tordillo, 150 do.; Tapique and Lobos, 125 do.

The first idea which suggests itself is, that the enormous rise of valuation, by the agents of Contribucion Directa, is far out of proportion with the increase of property. These zealous assessors had probably received a hint that it was necessary to double the revenue of the province, and they joyfully accepted a task which doubled their own per centage fees.

The second idea is a question: What has Government done with the surplus two millions? Moron paid in 1861, 17,000 dol.; and in 1862, 27,000 dol.; which in 1863 rises to 390,000 dol. What value has that village received for this frightful levy of 390,000 dol. in addition?

purposes than the benefit of the rural districts. Robbery, murder, violence, trespass, cattle-stealing, house-burning are, and have been for over twelve months, practised with perfect impunity. Eighteen Irishmen have been barbarously assassinated during Dr. Acosta's administration, yet in no single case has the murderer been executed.

But if the report before us suggests a gloomy doubt, and sad reminiscences, it also affords room to believe that the camp resources have greatly increased, and although such splendid revenues are derived from the most neglected portion of the province, we hope that public indignation will point out and effect a salutary remedy.

A NEW EXPORT TRADE.

Exporting produce has been for years our hobby. Manfully in the teeth of all the billiard players and heavy swells on town we have called attention to the scandalous increase of our imports, and the decided diminution of our exports. The balance of trade has been steadily becoming more and more unfavorable for the country.

No doubt many of our readers will surmise that it is wheat or maize or cotton to which we refer. The Tribuna people, who profess such an attention to material interests, will probably treat their readers to a chapter on cochineal or home manufactured cod liver oil—but we regret to say the new export in question is one which, instead of enriching, only impoverishes still further this country, and if allowed to go on, may ultimately lead to the loss of one of our most important possessions.

Notwithstanding all the money we have spent in fortifying that little island which Orientals claim and Argentines possess, Martin Garcia is in danger, and all the Muratures in the River Plate will not be able to save it unless Manuel Haedo is obliged to stop importing. The foreign ship-masters are premeditatedly walking off with Martin Garcia by piecemeal; every second vessel which leaves this port takes a greater or less quantity of this island in her hold.

It will be said that vessels cannot leave without either cargo or ballast, and consignees of vessels will urge with much truth that a few tons of stone can do no injury; but when these few tons of Martin Garcia stone leave the island each hour, when a long string of vessels is seen in the river, morning, noon and night taking in as ballast the very heart and soul of Argentine, we think it high time to caution the President of the approaching danger.

The demand for ballast from Martin Garcia has lately so increased that the pickaxe is no longer equal to the task, and small kegs of cheap gunpowder have to be run in under the rocks to blow up Buenos Ayrean ballast ready-made.

Now we are neither 'crudo' nor 'coicido': did we belong to either party we should most certainly join the latter, but we take a sincere interest in the welfare of the country, and can characterize the conduct of the captains who are walking off with the Island only as becoming a set of hard-hearted mariners. Where, we indignantly ask, is M. Gelly that he permits this international pilfering? Where is the captain of the Island that he does not advise Government that he is hurriedly losing ground?

The Chincha Islands have long since been walked off with, by English and American captains, and now the only fortress in this republic, the very Gibraltar of the Plate is to meet a like fate. President Mitre, if he wishes to rescue Martin Garcia, should put Mr. Haedo of the Western Railway in the stocks, for bringing out vessels to this country laden with railway iron, &c., without first having secured some other homeward cargo for his vessels than the rocks of Martin Garcia.

EDITOR'S TABLE.

The 'Contribucion Directa' book which Minister Dominguez sent us discloses the most astounding facts—the Arabian Nights' Entertainment are nothing to it. We can now very well understand why there is such squalling about politics—for we believe that the vaults of the Government House must be overflowing with ounces. Since the foundation of the world there never was a country where property in one year so increased in value as in Buenos Ayres.

We learn that Richard Kenys, who was murdered, left a nephew, named George Edgar; the latter should, therefore, apply at the British Consulate for the news concerning him. To-day, being April Fool's Day, is a date of terror for old bachelors in England; here, however, the celebration is not kept up.

The G. Southern railway is progressing rapidly; there are over 700 navvies at work, and we understand the whole earthworks of the first section will be ready against the arrival of the rails from England.

We have placed our gin, gratis, at the disposal of D. Manuel Agulla and the Parana Association, whose cotton we intend to buy cleared, at 3 reals per lb. Dr. Washington Kirwan, who passed so creditable an examination before the Medical Board, last week, has fixed his chambers at 1.6 calle Florida.

Our indefatigable and progressive Postmaster-general, Dn. Gerovico A. Penedas has just set up a new press received from England, for printing stamps. Besides the dies, he has a machine for drilling pin-holes, and a supply of paper with R. A. in the water-marks.

Col. Mateo Martinez is better of his wound; but an officer stabbed at San Telmo during Sunday's elections, is not expected to recover.

THE MARKETS.

On the roads leading to the city, there is a steady demand for property chiefly watches, clothes and money; terms; the intended purchaser drawing at sight, on non-delivery. The principal transaction, during the last few days, has been that of one basque, despatched from Caballito: nominal value of the basque's throat 5000 paper dollars. The purchaser has not made his appearance at the 'policia,' to cancel the debt.

We also heard of a small parcel of bank notes changing hands at Palermo railway station. The arrival in Palermo of such an importation caused great excitement amongst the traders, and the holder was followed from a café to the railway station, by the anxious brokers, who had payments to make next week, seeing the importer taking his ticket, they could bear the suspense no longer, so they bullied him and seized the money. This took place before regular business hours, as early as 7 o'clock a.m.—total amount of sale, \$800 and a gold watch.

Two milkmen at Flores fell into the hands of some speculators and were completely fleeced, coming into town in a perfect state of nudity. Another constabulary of the 'milky way' was eclipsed at Lomas de Zamorra; we do not know the details, as nothing was found but a 'lasso' and a corpse.

We hear of a merchant wonderfully escaping, near a cetro Diablo, from some importunate brokers, who intended to effect a fraudulent transaction. At the Cines Esquinas, one night last week, a gentleman was going home, when he was accosted with the familiar locution 'stand and deliver': fortunately he took out his pocket-companion at once, and convinced his friends that their fears were inadmissible. Five several cases are reported in the suburbs, where the Chevaliers presented themselves at private houses, but only in two did they succeed in completing their arrangements.

till half past 4!—After you were wounded you never moved an inch until the elections were over.

Here ends the plaintiff's case, and the question put to the jury is, what they think of Mr. Mateo Martinez. We hope some of our witty subscribers will send us an answer.

The most glorious news about town yesterday, was that the columns of the 'Tribuna' were open to Tom, Dick, and Harry, respecting the loan question. Several very intelligent 'vigilantes' were seen scribbling away on the seats of the Plaza. We suppose they were availing themselves of Dn. Hector's great liberality. Any loan made to this country, for the purpose of redeeming the paper money, will only get us more into debt, without effecting the purpose.

We see that on Monday some property in Barracas, belonging to Mr. Peter Murray, deceased, will be sold off by auction. On the same day, the famous distillery and tenements of Boutinet, Brothers, bankrupts, will be sold out by order of the court.

We learn that Richard Kenys, who was murdered, left a nephew, named George Edgar; the latter should, therefore, apply at the British Consulate for the news concerning him. To-day, being April Fool's Day, is a date of terror for old bachelors in England; here, however, the celebration is not kept up.

WAR IN EUROPE.

The news from the Austro-Prussian army has invaded Denmark has created a great sensation in Paris, inasmuch as such a proceeding is likely to bring about complications of a most serious character. It is said that the notes of preparation have been heard in both the French army and navy, and that the Emperor Napoleon will now certainly take some decisive steps to arrest the progress of Prussian troops further into Jutland.

The state of affairs in Germany appears daily to become more complicated and difficult of solution. The hostile feeling awakened in the minor States by the voice of the Federal Diet is fomenting, and threatens to become a source of civil war in Germany. The right claimed by the Diet to dispose of the Duchy of Holstein is usurped by Austria and Prussia, who look on the Duchy as theirs by conquest, and regard neither the opinions of the minor States nor the pretensions of the Duke of Augustenburg, whose claims appear

Business has been very brisk, and within the week, several other transactions are reported. La Progres mentions a dispute between two traders at a Fonda, one of them being carried home on a door. In the Once Setiem bre clearances of personal cargo are effected every night, and the speculations are so profitable that we expect several new hands will engage in the business.

Summary for the week. Despatched 3 cases. Cleared, personally 7 " Not elected 2 " Deposits opened 5 " Complaints are current that these brokers have no license, but we are assured they have taken same (not in a poetic, but a matter-of-fact sense) on more than one occasion.

ADVICE.

We notice that one of the native 'cronistas' pours out his woes, and declares, in most affecting terms, his impecuniosity. He tells how he is haunted at night with dreams of Monte. Cristian wealth, and in the morning finds that this money, like that mentioned in the 'Arabian Nights,' has turned to withered leaves. He has tried all kinds of dodges to increase his revenue, and amongst others, has invested his last ten dollars in a lottery ticket.

We know plenty of young men here who are only too fond of following the example of Almaschar, and spending their time in croting Chateaux en Espagne; and only too many of them do invest money in lotteries. If they would take our advice (which they will not), they would do as the Chinese do—namely, write on a piece of paper their wishes, and then burn the paper at a candle, at the same time breathing a silent prayer to Plutus; the one course they will find to be every bit as effectual as the other in supplying them with that, according to Solomon, universal want—a thousand pounds.

We have witnessed all kinds of gambling, from simple pitch-and-toss, to betting on flies and lumps of sugar, but have never yet seen such an idiotic mode of getting rid of money as lotteries. If you must have a vice, take to drinking like Saxons, and thus ruin yourselves and disgrace all connected with you; that is something like a proper career for Englishmen; but don't you ever go and be so mean as to ruin yourselves and enrich others.

There is something low about that; if you fall, bring down a pile of people with you, and don't go out, like a 'parser's dip.'

News from the Provinces.

The Paven, which came in yesterday (and left same evening), has brought us the 'Ferro-Carril' to the 29th ult. The San Juan, Mendoza, and Cordoba mails arrived in Rosario on the 26th, but bring no news.

It requires 140,000 dol. have been given by the committee to rebuild the public edifices of Mendoza, including churches and convents; but not one real to help the poor, who lost everything by the earthquake, although the subscriptions were intended specially for them.

ENTRE-RIOS.

There is little of importance from Paraná. The Entre Rian Bank is to be inaugurated to-day (11 Fools) and it is said the scarcity of gold in B Ayres is owing to the large remittances for that quarter. The notes of the Bank are to pass current in all Customs offices: this was decreed by the Legislature, most of the Deputies being shareholders; as stated by D. Estevan Moreno, in opposition to the bill.

BALETO.

The capture of Saldanha (rebel) is confirmed. The guerrillas of Salto and Paysandu suffer heavily by desertions to the filibusters. Waldino Urquiza went to reinforce the latter place. The Democracia states that Concepcion is full of N. Guards and rebels who have escaped from the war, both parties being tired of fighting. Some hot guerrilla firing took place at Paysandu on the 14th.

LATEST FROM MONTEVIDEO

The Stella has brought the 'Reforma' of Wednesday, with confirmation of Sa'danla's defeat and capture. It seems the filibusters, 80 in number, were surprised between Arcepey and Palomos, by 40 soldiers; the former were all killed, wounded, or captured, along with a quantity of arms.

An Italian whaleboat, containing six boxes of military stores for the rebels, consigned to J. M. Guerra, of Salto, was captured in that port, and the crew (5 men) put in prison. Flores is at Arroyo Negro, 7 leagues from Paysondu; the rebel Castro is at Pray Bentos. Some Italian officers, deserting from Flores, or else on special commission, have come to Buenos Ayres, per steamer.

ON CHANGE

Patacones opened at 29.15, went up to 29.20, and finally closed at the opening price, 29.15. This being the last day of the month, there was a deal of activity perceptible in cash transactions. Total cash sales, 277,800. For May, 31st, 29.00, at 29.20; for the end of April, 29.30. Total sales of the day, 414,800. There was some unintelligible transaction in foreign coin, 48,000 patacones done to day at 20.20. The month has closed in, and the Finance Minister has not burnt even a five dollar note. It is to be regretted that the Bank does not make some arrangement with Mr. Gonzalez, by either purchasing the extra duties, for

the next twelve months, at a certain figure, and burning same, or advancing the National Government a round sum, say fifty millions, on these duties, and throwing the same into the flames. One move, in the right direction; is the selling of the steamers; although it leaves us with an admiral without a navy, still if the proceeds are to be applied towards paying off old debts, we regard it as a sound measure. The Pavon arrived this morning, bringing down a good deal of paper money and specie. The news from the provinces will be found in another column. The San Juan mines are still talked about, and not one word has been received from the company.
