THE NORTHERN RAILWAY.

Our attention has been called to a most unjustifiable and unfounded attack on the Director of the Northern Railway, with reference to the late elections, a topic that seems to inspire venom into all the native journals of either side.

It is needless to remark that an enterprise wholly English, such as is the Northern Railway, must observe a strict indifference as to the rival parties of political speculators, who wish to gamble with the destinies of the country.

Now this is exactly what most of all vexes Argentines, and the attacks on Mr. Henry Zimmermann are easily explained. At the last Municipal elections, a gentleman solicited Mr. Zimmermann's aid by sending his men en masse to vote at the Socorro.

Yet the 'Nacion Argentina' with great temerity asserts, that the men of this company were driven in troops to the hustings. We have again Captain Harrison's rebutting evidence, to show that 'not one of the company's servants was absent on last Sunday.'

That Mr. Zimmermann has created personal enemies by refusing on a former occasion to lend his men for election manoeuvres, we have no doubt; nor is there any upright man who will deny that he herein fulfilled his duty.

There may be complaints against the Northern Railway, as unable to accommodate the great crowds who patronise it on holidays—a lucky omen for the shareholders. But we feel convinced that the director and his subalterns are efficient and gentlemanly, the servants polite to passengers, and the line much better managed than the Western.

DISTRICTS OF MERCEDES AND LUXAN.

The two partidos we have chosen for to-day's review are among the chief head-quarters of Irish sheep-farmers. Mercedes is set down in page 4 of the Contribution report, as including 52 square leagues in extent (of which 14 are Government lands) at a valuation of 600,000 dols. per league.

The tax-gatherers have done a splendid business in 1863, increasing the revenue by 103 per cent., for whereas in 1862 Mercedes paid only 83,053 dols., the levy last year amounts to 108,375 dols. It is a good sign to find few estancias of great extent in the partido, for where land is of little value there are immense tracts in the possession of single individuals.

The returns for Luxan, wonderful to relate, agree in page 4 with the Commissioner's report, the extent being 38 square leagues, not including 2 of public lands. Sr Rivadavia congratulates Government that the manufacturing valuation has increased the tax by 101 per cent. over 1862; from 57,921 dols. to 78,205 dols.

The returns for Mercedes, wonderful to relate, agree in page 4 with the Commissioner's report, the extent being 38 square leagues, not including 2 of public lands. Sr Rivadavia congratulates Government that the manufacturing valuation has increased the tax by 101 per cent. over 1862; from 57,921 dols. to 78,205 dols.

When we take into account the large properties belonging to Irishmen of Mercedes and Luxan, in stock, and how many are wealthy farmers though not on the privileged roll of those who pay Contribution Directa, we may fairly conclude that eight millions of dollars in landed estate represents only a tithe of their riches, and that our countrymen in these two districts alone muster an aggregate capital of half a million sterling.

Calculating the subscribers to the 'Standard' as 2 per cent. of the Irish population, we find the numbers thus—Mercedes, 1600; Villa Luxan, 1,100 giving an average fortune of £200 sterling per head. On close study this ratio will appear very nearly exact.

EDITOR'S TABLE.

As yet we have no tidings of M. Caumartin. It seems that a week ago he spoke to a friend in the Club, of his desire to commit suicide, if he could only muster up the courage.

The Progress of Tuesday evening has a long and amusing account of the marriage and troussau of Miss Guerrero with the wealthy proprietor D. Martin Alzaga.

The marriage and troussau of Miss Guerrero with the wealthy proprietor D. Martin Alzaga. The gay Lothario is considerably past the meridian of life, being some 40 years the senior of the charming bride.

Mr. Hopkins has sent us his prospectus, and extracts from the leading London journals, touching the B. Ayres Bonded Wharf and Transit Co. capital £300,000 (of which it is rumored the concessionaire takes one third in shares).

The Tribune has an article 'Evil days,' alluding to the demise of two young ladies, Amstilde Becot, and Alicia Mendoza, the mysterious disappearance of M. Caumartin, and the lamentable accident to a youth named Cano, who shot himself in the ankle, all which disasters occurred in the first week of this month.

The ridiculous manifesto of the rebel General Flores, will cause amusement both to his friends and opponents, as he seems farther than ever from upstating the Mvidcan Government, and paper thunderbolts are perfectly harmless; they however serve to fill an idle hour with the weary campaigners, and are a god-send to stale newspapers.

The elections still form a universal topic among those Portenos who have nothing more serious or useful to talk about. It is thought the Chambers will certainly ratify the farce of Easter Sunday, and it is better so, as we are disgusted with electoral rowdies, and it is quite immaterial for the ruin of the country which list triumphs.

Mr. Hopkins' project for building Bonded stores, at the Bajo de Catalina near the Gas-house, has not, it seems, been abandoned. We read that Messrs Peter Beare and Senon Rodriguez have proposed to the Minister of Interior to erect a new Custom house and stores on that point, for which purpose they will invest a capital of £100,000 sterling, on guarantee of 7 p. c. in Custom-house Bonds.

The rumor that the murderer of Kirby and Devere had been taken is unhappily incorrect. We are not aware that the slightest effort has been made to capture this condemned assassin.

The Nacion Argentina copies an alarming article from the Pueblo, entitled 'The Pampa revolution,' stating that there is a conspiracy in town to expel the National Government, and that Dr. Acosta's Justices in the camp are under orders to lend their aid at a moment's warning, a number of the Provincial Deputies being already gained over to ratify the coup d'etat.

Our camp friends will see an advertisement of auction by M. Billingham, who will sell some Negretti rams and ewes on the 14th inst at Messrs. Ruiz Bros. barraca.

We are glad to see that a policeman has been placed at the Cathedral to enforce due respect for the sacred edifice, but it is indecorous to allow placards to be stuck up on its walls; "cheap cigars," "fashionable tailors," "startling photographs," "wonderful auction," "French novels," "six-barreled revolvers," and "stylish neck-ties" arc a burlesque on the House of God.

The Concepcion press complains that the Felix Colon steamer is not suited for her present route, across the R. Plata and adds that she would be better occupied in running on the Uruguay only.

We have received No. 11 of the Revista de B. Ayres, and will review it to-morrow; also D. Monquillo's Revista Judicial.

The affairs of the Mr. Thomas Harkness seem in lengthened litigation. There is a notice in the native papers calling on the Assignee Mr. Peter Beare to attend at some court.

We learn from Pavon and other parts that the rain has been very heavy in the North camp, several arroyos being now impassable. Similar accounts reach us from Banda Oriental where the streams have not been so swollen for many years.

A ludicrous accident happened to the passengers per Salto on Sunday. Owing to the gale, the steamer put into the Tigre, and as no horses could be procured, they had come on foot to San Fernando; moreover they were not permitted to take any luggage, it being Sunday (not ever a carpet-bag) and they had to wait for their clothes till next day, here in town, which caused many of them to lose the steamer going to Montevideo.

The funeral of Mlle. Mendoza took place yesterday in Calle Bolivar, being attended by about fifty carriages.

Approach of the Millennium.

Since the commencement of the American war everything seems to be turned topsy-turvy. The most extraordinary events—if we may believe the Argentine newspapers—are daily taking place. At one time an exploring party starts from Copiapó for the North-West Passage; at another, Polish news comes from Ublin; and now we see recorded in several of the Buenos Ayrean papers the wreck on the Shetland Isles of the Victoria, bound from Calcutta to Liverpool, with a cargo of what think ye? Cotton? Gold? Rice? Indigo?—No, to all these guesses; but a cargo of coal!

Scientific men say that, at the present consumption, the coal fields of Great Britain will last for several thousand years; but that must be a mistake, as the English are already importing fuel from India.

The Board of Trade would, no doubt, like to know what a vessel bound from Calcutta to Liverpool was doing in the neighbourhood of the Shetlands. She must have been trying the overland route, and should this course become common, we would recommend having the Alps and Pyrenees properly buoyed off, and lighthouses erected on Montenis and Blanc.

Had we seen the statement of the loss of the Victoria in any other paper but Argentine, we should suppose it to be a mistake, but considering where it does appear, we come to the conclusion that the end of the world is at hand, and that the sea is gradually disappearing.

THE TURKISH PRESS.

In Constantinople, at mid-day, there is distributed a paper, written by hand or lithographed, called 'Tejvat,' which contains the despatches of the day, and which is a kind of London 'Gazette.' The editor is an Englishman, born in Turkey; he is also editor of the Turkish official newspaper, the 'Roznamah,' or bulletin, and the 'Jeridich Hawadas,' general information newspaper. This latter paper consists of four pages, about the size of 'Lloyds,' but in larger type, and containing more material, in consequence of the Turkish letters, which are, one may say, stenographic. It is published weekly, with a daily bulletin. The 'Jeridich,' and other newspapers, are strongly supported by Government, who take many copies, and order the local authorities to hunt up subscribers. The 'Terkim,' the official organ, is published weekly, under the direction of Edmed Pachá, Minister of Public Instruction and Public Works.

The 'Terjuman Alivali,' the great sensational newspaper, is one of the new periodicals, and is very popular. It is edited by Aghiala efendi, Post-master-General, and by Refek Bey Aghiala-efendi is a Turkish Howland Hill, and belongs to the Liberal party. It is published three times a week, and is much valued for its literary communications.

The 'Tasveeri Ekriar,' or 'Mirror of Thought,' is another new and very favorite periodical. It is published twice a week, and is literary and scientific. Its editor, Shemasse, is a very distinguished character, and was formerly employed in the office of the Minister of Public Education.

There are besides Armenian and Arabian periodicals. The 'Mejmoovai Hawadas,' or collection of news, is weekly, and is edited by Vartan Pachá, employed in the Admiralty. Its principal object is to defend the small portions of Roman Catholics, and Armenians. The Armenians have other newspapers in Armenia.

The Arab periodical 'Jewahir,' is conducted by a Syrian gentleman, Paris ul-Shedias, a Mussulman. It is well edited, has a large circulation amongst all classes, and has much influence. The

book-ellers in general are not allowed to sell newspapers in their shops. It is now two years since Mr. Churchill introduced the system of selling periodicals in shops.—Diario de Rio.

THE CAPITAN PROJECT.

The prospectus has been issued today of the Buenos Ayres Bonded Wharf and River Transit Company, with a capital of £300,000 in 15,000 shares of £20 each, one-third of which have been already privately subscribed for. The prospectus states that the company is formed for the purpose of working a valuable concession granted on the 20th of July last by the Congress of the Argentine Republic, for the canalization and use of the Arroyo del Capitan, a narrow winding stream or channel connecting the Parana de las Palmas and Lujan rivers, the latter of which it enters opposite the town of San Fernando, 16 miles above Buenos Ayres; together with the erection and construction of such wharves, ware houses, and deposit stores, as may be necessary to the requirements of the coasting trade of the interior rivers; and the establishment of towing steamers to and from the rivers Parana and Uruguay; According to the bureau of statistics, 1860-1, at Buenos Ayres, the trade on these rivers averaged 277,000 tons per annum; and, as the great staples of wool, hides, and tallow are susceptible of indefinite expansion, this trade will no doubt annually increase.

The works which it is now proposed to execute are the first of the kind on the entire river coast, and they will be situated at the only port on the Rio de la Plata, in immediate connection with 5,000 miles of interior navigation, and effectually defended from all gales. Moreover, it may be well to add, that the works now proposed to be executed by this company form a necessary complement to the important railway to Cordova, which is about to be carried out under influential auspices; for, when the work is completed in this concession are constructed, every ton of merchandise bound to Buenos Ayres, or from thence to the interior, including Paraguay, Upper Brazil, and Bolivia, will pass through this company's property, instead of being subjected as at present to the peculiarly dangerous navigation of the River Plata. A contract has been already entered into, by which the payments of expenses for the construction of the works, and interest at the rate of 5 per cent. per annum to the shareholders during construction, is secured within the proposed capital. The company is very respectably constituted, and the estimated returns are large.—The Post.

Chile, although agitated by the approaching elections, is also busy with the Bolivian difficulty. The press are more in favor of obtaining the disputed territory, ejilones, by war than by peace.

Peru and the United States Minister have offered their services to arrange the matter. The offer of the former has been refused; of the fate of the latter mediation nothing is known. All is quiet otherwise. A large gang of robbers has been arrested in the neighbourhood of Valparaiso. Mendoza is quiet, and the electioneering story of 80 women having been sent to the frontiers, dwindles down to six, who were found to be incorrigible. The report of a mutiny in San Rafael turns out false. From San Jaug there is no news whatever. San Luis is in the same state of ditch water dulness.

MELANCHOLY ACCIDENT.

We regret to announce the sudden death of Mr. John Butler of San Pedro who was killed by lightning on the evening of Wednesday 30th ult. He was, it seems, looking after his flocks, for we hear that his horse was killed by the same stroke. Only two months before, he had got married and now leaves a young widow to deplore his loss. He was 35 years of age, and a native of Co. Wexford; during a residence of 15 years in this country he had by his industrious habits secured a competent one, and the esteem of all his neighbors. His remains were conveyed to their last resting-place by a concourse of Irishmen and persons of various nations. May he rest in peace.

FOREIGNERS MURDERED IN BANDA ORIENTAL.

Among the shocking murders now occurring in Banda Oriental, we have, with regret, to announce that of Mr. Denholm, brother-in-law to our respected merchant Mr. Drysdale. It seems that on last Thursday, a ruffian presented himself at the estancia house, and on Mr. Denholm going out he was stabbed mortally. The assassin escaped to a thicket and there concealed himself, but, next morning, the peons went in pursuit, and drove him to the banks of an arroyo, where he was unable to pass, and then turned to fight them. He was instantly shot, thus saving the authorities the useless and dangerous formality of a trial. Mr. Drysdale had left the estancia on Thursday morning and only learned the sad intelligence on Saturday.

We are informed that the assassin wore a sword, and the red cockade of Flores' army. Mr. Drysdale jun is gone up to bring down the body of his unfortunate relative.

Some short time ago a French hotel-keeper was murdered in his house in the town of Colonia, but the murderer was seized and will probably be condemned and executed.

We learn that the British Admiral is about proceeding to Salto, relative to the case of Mr. Smith's assassin, about whom it seems there is some quibble, through which justice may be defeated.

supplied with drinking-water from a small lake, and owing to the drought the water was very low and dirty, and before drinking it, it is necessary to boil it. Precautions have been taken to provide better water, the epidemic is decreasing.

Buenos Ayres is likely to have a taste of the same disease, and then the Municipality having the experience of the Floridians before their eyes, will 'twinkle about at a tremendous rate, appointing medical commissions to find out what is known to every one. What a consolation it will be to the survivors to know that their departed friends owed their exeunt to foul water, and that the country, far from being unhealthy, is so robust that artificial means were brought into force to cause sickness.

FROM THE INTERIOR.

The Pavon arrived here, bringing dates from Chile up to the 14th March; San Juan, 1th; Mendoza, 19th; San Luis, 2th.

Chile, although agitated by the approaching elections, is also busy with the Bolivian difficulty. The press are more in favor of obtaining the disputed territory, ejilones, by war than by peace.

Peru and the United States Minister have offered their services to arrange the matter. The offer of the former has been refused; of the fate of the latter mediation nothing is known. All is quiet otherwise. A large gang of robbers has been arrested in the neighbourhood of Valparaiso.

Mendoza is quiet, and the electioneering story of 80 women having been sent to the frontiers, dwindles down to six, who were found to be incorrigible. The report of a mutiny in San Rafael turns out false.

From San Jaug there is no news whatever. San Luis is in the same state of ditch water dulness.

Parana—Carriago complains that several plans have been formed to assa sinate him at the elections to come off on April 1st, and adds that it is rumored General Urquiza has given orders to despatch him privately. It seems he intends to stand as candidate Deputy for that department, although he alleges the authorities will not protect his life. The 'Litoral' also reports a meeting of officers convened by Col. Navarro at Villa Urquiza, to petition the General to continue as Governor of the province.

SAVINGS BANK BANK MAU & CO.

No. 103 calle de Cangallo. — BUENOS-AYRES.
The immense advantages of Accounts Current are now so generally felt, and appreciated in the great emporiums of the River Plate—Montevideo & Buenos Ayres—that there are very few Merchants who fail to keep one at the Bank in which they place the most confidence.
The Bank of Mau & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depository for their savings.
The sums deposited in that most important institution are daily increasing and already reach a very large amount.
These advantages have not hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness or old age, instead of spending them in the immoral gambling, in lotteries and other frivolities.
The Bank of Mau & Co. of this city following the example of their Buenos Ayres September 19th 1863.
p. p. Mau & Co.

ENGLISH GRAMMAR SCHOOL,
CALLE LARGA DE BARRACAS.

Dr. Mr. Pongerrard, of the London University College.
This Establishment, which from its foundation has been patronised by the principal British families of Buenos Ayres, is an exact reproduction of an English School, where a sound commercial education combined with the acquisition of the French and Spanish languages is imparted to the pupils, and based upon the same system as in all first class European institutions of the kind.
An ever-watchful and constant supervision, and a strict maintenance of order and propriety, are a sufficient guarantee that the morals and behaviour of the pupils are carefully attended to.
The different branches taught in the English Grammar School comprise the English, French and Spanish languages, History, Geography, Arithmetic, and Book-keeping in all its parts, Writing, and Religious Instruction.
Extra branches, such as Latin, Mathematics, German, Music and Drawing, are also taught by special masters.
The situation of the English Grammar School, in one of the most delightful Quarters of the Calle Larga de Barracas, at the very gates of the city, is one of the most healthful and picturesque of the environs of Buenos Ayres.
