THE SOUTH AMERICAN REPUBLICS.

Republics are at a discount, and since their initiation those of South America have never reached par. Statesmen have puzzled themselves to discover whether the failure was attributable to those who made the experiment...

When Sr Saravia started for Montevideo charged with formidable prospects, the market was thrown into confusion and the Brazilian Cabinet...

Nonc better than Argentinians know the tenuous chronicle of civil wars, revolutions, invasions, tyranny, excitements, disorder, and lawless violence of every kind which constitute the history of Spanish republics for the last fifty years.

Their natural resources were stupendous, witness the Peruvian Government extracting every year Three Millions sterling from the Chincha Islands.

Nevertheless Sr Saravia had a pretext for bullying the Oriental republic, and his ultimatum being rejected, he broke off all relations with President Aguirre's cabinet.

The coincidence of Pinzon's seizure of the Chincha Islands and Maximilian's departure for Mexico seemed to augur badly for the unhappy Oriental republic...

As soon as the names of the Oriental forgers—Bustista Mourat, Beltrán Grand, Francisco Grand, Pablo Beltrán y Valle, Santiago Hoffmeyer Mangul, Vils y Giroes, y Leoner Balcar, These fellows had forged bills to an enormous amount...

One of the most important inventions of the day is the new application of Keroseene. Coal will henceforward be no longer used on board steamers...

The following are the names of the Oriental forgers—Bustista Mourat, Beltrán Grand, Francisco Grand, Pablo Beltrán y Valle, Santiago Hoffmeyer Mangul, Vils y Giroes, y Leoner Balcar.

One of the most amusing features respecting the Peruvian question is Mr. La Paz's offer to write poetry for the cause. Unless to throw ridicule on the whole affair, we certainly cannot see any other object the poet can have in view.

It is a brilliant party took place the other night in Barracas; all the balls of that middly locality were there. It was one of the grandest balls that ever was given in Barracas.

A rather ludicrous case occurred the other day in one of our country towns. It appears that the justice of the peace in the town in question has a large wholesale store, which is greatly patronized by Irishmen.

Great Britain, as President Mitre says, has always been the best friend to South America, and her good-will will

The Senate has just decided the great Marmol question, which was brought before the house by Dr. Alana. Sr. Marmol has received liberty to attend to his diplomatic cares in Rio Janeiro.

The Fairly has made, we believe, the quickest trip on record between Montevideo and Buenos Ayres, in less than nine hours.

The River Uruguay has risen considerably during the last week; it is to be hoped that the recent rain has caused it to rise still higher.

Minister Marmol, we hear, is expected back from Rio per next packet. We wonder why he returns so soon.

The Brazilians, it is said, demand possession of Tacarcara, and that their squadron shall, until the termination of the revolution, hold Colonia, Fray Bentos, Paysandú, and Salto.

President Mitre, it is said, has become quite nervous about the Brazilian and Oriental question. Had his Excellency read the 'Standard' he would not have slept so long on a matter which is of the highest importance to this republic.

The Flores Committee, we are told are in a great fright about Brazil. It is generally believed that Brazil will take possession of the whole of that republic, and hang up all the Flores men caught.

Young Flores, who embarked on the 1st of June for Fray Bentos, swears fire and murder against the Brazilians, and states that he will do all he can with his father to bring about an arrangement with the Government—that Orientals ought now to unite and crush Brazil.

Sr. Delsar has again commenced the saladero business at Goysa, and is killing fire. The people in Corrientes were greatly rejoiced to find the saladero again working.

In Paraná there was renewed animation, owing to the opening of a new saladero. We are told that no less than ten thousand cattle were slaughtered at present.

In the province of Itajuy, we hear, there is a great scarcity of labour. Any Europeans who can make their way up to this distant province will probably make their fortunes.

It is said the whole of Monday night, and a farmer from the small republics of the state of the roads as frightful. Those parties who have supplied themselves with Mr. Vandell's portable lantern which can be moved in an hour, have had a dream.

One of the most amusing features respecting the Peruvian question is Mr. La Paz's offer to write poetry for the cause. Unless to throw ridicule on the whole affair, we certainly cannot see any other object the poet can have in view.

The editors of the 'Nacional,' and the withholding their extraordinary patriotism, made no show at all at the Peruvian meeting. We believe, however, their absence was not felt.

one right at him, then, and but that some of the young men interposed a small bag of biscuits, a collision would inevitably have taken place between the Irishman's hand and the judge's eye.

The French transport 'Euryale' arrived from Brast en route for the Pacific. The shares of the Commercial Bank are looked for, but there are no sellers.

The International debt is quoted at 46. Money is abundant and good names discount at 1 per cent per month and under.

The capital of the London and River Plate Bank in Montevideo is stated to be four millions seven hundred thousand pounds.

We regret to say that we read in the 'Reforma' an unfortunate Frenchman has been staked out alive, at his own residence in Belen, by order of a local called Fausto Aguilar.

A vessel has arrived with the first lot of a regiment (500) of Italians, hired by the National Government. We think it would be wiser for President Mitre to engage some Swiss, the latter being generally tradesmen, who could usefully employ themselves when their service expires.

Captain Milla has resigned the post of Secretary to the Friends of Peru; it does not appear this is from any quarrel with the Society, but probably from private arrangements.

As a sign of the times, a book store has been opened at Barracas (S), which village will soon be connected with the city by rail (Great Southern, 1st section).

We notice the formation of a Parrotal Joint Stock Company in this city, the particulars whereof we will try to learn.

In consequence of the number of officers constantly arriving from the army in Montevideo, the President has decreed that no officer or soldier shall be permitted to leave his regiment without permission from the government.

Government spies who have been in the rebel camp at Tala state that on the 28th the rebels were concentrating their forces, Soares, Mauduca, and Borges have got their men all together.

The Government army is following and has taken up its position on the banks of the Tala, where the camps are in a superior condition.

On the 30th ult. there was a slight scrimmage, resulting in favor of the Government troops. Two live rebels were caught. Col. Appavicio started off in the night to take up the Regenerators, and the next morning the whole Government force marched in the same direction to support him.

Mr. Jas. Pat, not having time to bid all his friends adieu, previous to leaving for Europe, has put a valedictory notice in the Reforma.

Col. Lengua was at the head of the cavalry, but when the enemy heard of his approach they made off, with all speed, and never stopped until they got to the other side of the Yi. They took along with them one cannon and two carts, and about a hundred drenched cavalry soldiers on foot.

We perceive that the Minister has ordered the words to be proved which are contained in some answers sent in by Mr. Calvo has written a powerful article on the Brazilian question. We regret that our paper is so small we have no room to publish it, but it is well worth the perusal of President Mitre for its own merits.

The Gas Company has at last commenced to lay down tubes in Calle 29 de Mayo. The residents are in the greatest grief, as formerly there was no passing down this street on a dark night.

The beautiful and gifted Miss Estrada has been presented with a magnificent article by the gentlemen of Montevideo, into which is copied the delightful air from 'Sembrados' which she so exquisitely sang at the concert.

The Gas Company has at last commenced to lay down tubes in Calle 29 de Mayo. The residents are in the greatest grief, as formerly there was no passing down this street on a dark night.

Where the passengers are landed, is a bleak, inhospitable spot, but as the chisque came away on the moment, he could not state what changes there were for getting the vessel off.

Extraordinary Death. One of the most extraordinary cases of death we have read of, is in a recent number of the 'Reforma'—

Maximilian, King of Bararia, has died suddenly, and it appears his death was caused by his inadvertently striking a gold breastpin into his skin whilst dressing one morning.

Working of the Saladeros in the From information we have gathered we can affirm that the saladero workings of this year amount to the following:

Saladeros of the River Uruguay, Entre Rios and Patana, 600,000 head, Rio Grande up to date 310,000 It is calculated that at the end of the year 30,000 will have been killed, 420,000

So that we have workings to the amount of 1,600,000 head, which, calculated at 120 per lb., valued one with another on account of the small weight this year, owing to the animals being so poor, they produce 2,028,000 quintals.

Last year the amount was: In Habana 600,000 quintals. In Brasil 1,200,000 1,800,000

There therefore remains the surplus of 228,000 quintals over last year's amount. Admitting that the English vessel consumes the 140,000, which have been shipped and are still shipping, yet we have a surplus of 88,000 quintals for which there is no market, and all unsold will be at the actual value of the article.—(Tribuna.

The Sack of Maldonado and San Carlos. We have data from Mercedes to the 5th inst. The 'Reform' of the 29th publishes a letter with the following narrative:—While I was in San Carlos a band of filibusters entered the town.

We call the attention of our Foreign Ministers to the foregoing frightful atrocities perpetrated by the officers and men of an acknowledged rebel. These particulars we have extracted from the 'Reforma,' and as full particulars are given, we leave every reader to believe they are correct.

Highly Important. FLORES IN THE MID. An Englishman, recently arrived from the Banda Oriental, has called to say that a north of the river Negro there is still a single rebel to be found, and that the estancieros in that quarter are praying to Heaven for the rain, as they say if it rains heavily for six days the rebel will get completely 'washed out.'

It appears that during the last few weeks it has rained rather heavily, and poor Flores and his men have suffered the most extreme hardships. All loyal Orientales are therefore anxious for a continuance of bad weather. Every day the 'regenerators' are diminishing in number.

Our Mr. Janer has written a most feeling speech to his men the other day, and commenced:—'Muddy fellows, I regret that you should experience such hardships, but as we are told that the theory path leads to glory! so the muddy one leads to hell. The inclemency of the weather has made you in appearance 'blanco,' but in the heart of summer you will, no doubt, again be 'colorados.' Regard the mud in which you sleep as the feather-bed of liberty; the elements are against us, but let us have elements of our own.'

Our informant, who overheard this astute scavenger's address, states that if it keeps raining for a few days, there is an end to the revolution.

Another Shipwreck. Yesterday a chisque arrived in town, conveying the news of the loss of the Hispanoquid Hydra, on the coast of Brasil. This vessel, we believe, was bound from Genoa to Buenos Ayres, and had a valuable assorted cargo, besides a number of passengers on board.

The passengers were landed, and the chisque which arrived states that the camp in that direction are completely flooded. Several of the arroyos are so full, that he had to swim them.

SAVINGS BANK
BANK MAÑÁ & CO.
No. 103 calle Cangallo. — BUENOS-AYRES.

The immense advantages of Accounts Current are now so generally felt, and appreciated in the two great emporiums of the River Plate—Montevideo y Buenos Ayres—that there are very few merchants who fail to keep one at the bank in which they place their most confidence.
The Bank of Mañá & Co. in conjunction has already provided for the working class in that city, a safe & profitable depository for their savings.
The sums deposited in that most important institution are daily increasing and already reach a very large amount.
These advantages have no hitherto been enjoyed in this city by a large number of Clerks, artisans, workmen & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of sickness or old age, instead of spending them in the momentary gambling, in lotteries and other trifles.
The Bank of Mañá & Co. of this city following the example of their firm in Montevideo now offer the same facilities in this city and will open on the 1st October a "Savings Bank" at No. 103 calle Cangallo from 9 a. m. to 3 p. m. on week days, and on Sundays and holidays from 10 a. m. to 12 m. for the reception of the savings of the classes already mentioned.
The Bank will deliver to each depositor a Pass Book in which will be entered the amount deposited and withdrawn.
The depositor is permitted at any time to withdraw the whole or part of the sum deposited, in the former case the interest will be calculated up to date.
The Bank of Mañá & Co. is sufficiently known to the public by the benefit derived from the course of its operations which are regulated on the strictest and soundest principles and are directly to promote the general welfare.
The Bank of Mañá & Co. are so persuaded that this new branch of their business will render immense service to the working class of Buenos Ayres and its neighbourhood,
Buenos Ayres September 19th 1863.

WILLIAM LESLIE.

CONDITIONS.
1st. The Bank receives at interest any sum from Twenty five dollars currency or one inter dollar upwards.
2nd. The interest allowed is six per cent (6 p c) per annum which is liquidated every six months.
3rd. The depositor can at any time retire the whole or part of the money deposited.
4th. Once the amount deposited exceeds Twenty five thousand dollars currency or one thousand dollars silver the depositor if he wishes can open an account current according to the regulations of the Bank.
5th. In case the depositor loses his Pass Book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.
