NORTHERN RAILWAY EXTENSION PROJECT.

The Northern railway Co. through its representative, Mr. Henry Zimmerman, has petitioned the Provincial Legislature of B. Ayres, for a concession to extend the line from San Fernando to Campana.

The prolongation might be made in three ways; to the Tigre canal; to the Parana de Las Palmas; or to a port on the river Parana.

The plan finally preferred is that to Campana, this first port we meet on the Parana, and distant 80 English miles from San Fernando.

The gain to public convenience would be very great, as passengers for Rosario and the upper provinces, instead of taking a boat to go on-board, in our inner roads, might book themselves throughout at the Mayo station.

The Central Argentine railway Co. is so convinced of the mutual benefits to result from such arrangement, that the Directors of both enterprises intend to enter a treaty on the subject; for the Northern would become a valuable auxiliary to the Grand Central.

Mr. Zimmerman, seems to doubt that the actual returns of the line to San Fernando will be sufficient to cover the guaranteed net returns of 7 per cent; but he confidently assures the Legislature that the meditated prolongation would increase the traffic in double ratio, and so relieve the exchequer of Buenos Ayres of all anxiety as to pecuniary obligations.

We think he has made out a very good case, and that the Legislature will readily grant his petition. It is, however, evident that this is only the first step towards Rosario, for the Northern railway cannot be expected to stop at Campana, and once passing San Fernando, will rapidly pass by the station of San Pedro and San Nicolas.

The grand trunk at its present point, that commences and terminates at Campana, will be immensely benefited for a not distant future, and the Northern railway reach its terminus, the better. But, certain it will suggest themselves in Legislature. First, it will be natural to inquire how do the accounts of the company stand regarding the Julio railway, and to what extent it favors the country, but legislators are not to be given to the details of the company, but legislators are to be given to the details of the company, but legislators are to be given to the details of the company.

We hope that the law will be passed, but think that the Government puts a rather high value on the lands in the department of Rosario. Instead of five thousand dollars, we should suggest four.

The new Santa Fe Land Law. So much attention is now paid to land in Santa Fe and Cordova, that we think our readers will peruse with interest the celebrated Oroño Land Law, which is now before the Provincial Legislature of Santa Fe.

These lands have in former administrations been the subject of political speculation; laws, authorising their sale, have been passed and repealed, repealed and re-repealed, until at last the public became so tired of the matter, that by general accord it was admitted that the worst title to property in the Republic, was that of the public lands in Santa Fe.

The new Land Law now under consideration is most ably drawn up, and reflects the greatest credit upon Sr. Oroño, who is one of the few men in this Republic who take a comprehensive view of such subjects.

The Government is authorised to sell—1st. All waste lands. 2d. Land re-vested by Government. 3d. Lands simply squatted on, or held over five years, by parties who have solicited their purchase, provided that the rights of squatters be not infringed upon.

No lot can be sold of greater dimensions than three leagues; the sale of lands to squatters is limited to that which they actually use or occupy. The minimum price of land shall be five thousand silver dollars per square league, situated between the Arroyo Medio and the Carcaraña, and within eight leagues of the banks of the Parana, in the department of Rosario;

Lands situated between the Carcaraña and the Salado, as within eight leagues of the principal rivers, shall be valued at three thousand silver dollars per square league, and those between these limits 2500 silver dollars, if in the department of San Geronimo, and two thousand dollars if in the department of Santa Fe.

All lands lying north of the River Salado, inside of the frontier line, shall be ceded to whoever thinks proper to settle on them, provided that the squatter introduce cattle or sheep, to the value of one thousand dollars, on them.

Mr. Oroño, who introduced this law, very properly remarks, in a letter to the editor of the 'Nacion'—That the territorial extent of a country neither adds to its riches or importance, and that it is the number and condition of the inhabitants which forms a proper criterion of a country's wealth and importance, and for this reason there has been for many years a desire to people our waste lands; but to bring about this, it is necessary to distribute the lands as much as possible, so as to have a numerous population of owners of the soil.

We understand the Germans, of all foreigners, most patronise the Album, and as it is both cheap and deserving support we hope our English friends will be prevailed on to encourage liberally so useful, entertaining, and instructive a publication.

The Production of Wool in the World.

Last year a similar work was published, headed with the same title, which, however, failed to convey the author's ideas on the subject. Notwithstanding the want of success, the present author, at the constant entreaties of the editors of this paper, and also in the hope that some one more competent should give further information on so interesting a subject, at once resolved to publish the following work, which comprises three parts.

The first, refers to the quantity of wool in the world; the second, to the different qualities; the third, to its consumption.

Wool, and more particularly sheep's wool, from times remote, has ever been most in demand for clothing amongst all civilised nations, owing to the ease with which it is manufactured, and its facility of taking all colors of dye; and, lastly, its great durability.

We must congratulate M. Palliere on his present number, which is much improved in lithographic execution, and comprises two very pretty and characteristic pictures of life in the Argentine plains.

A Halt on the Pampa shows in the foreground one of those barbarous but picturesque vehicles called 'carretas,' beside which the owners, a group of five gauchos and two women, are making bivouac: The hour is near sunset, and they are preparing the evening meal, an 'asado' stuck on a spit in the midst of burning embers, around which they sit, Turkish fashion.

The production of wool has spread with the growth of civilisation, and where formerly it was limited in the Old World, to a part north of the Equator, and in the New World, to a part south of the Equator.

On Tuesday evening the Dolores coach, drawn by 28 horses, got stuck on the Barracas road, right under the hill. It was afflictive to see how the outriders, or quartadores, beat the unfortunate horses; such cruelty to the animals would get all these fellows one mouth on the tread-mill.

The Government has received further information from the engineer who leads the expedition through the Chaco. On the 24th of May they were at a place called the Bracho Viejo, an establishment belonging to Sr. Rams & Rapier's Company.

The last news from San Juan is rather good. The mines are all at work, and the rebel Auguero had been captured, and there was an end to all disturbances.

We have refrained from publishing the terms of peace, proposed by the Flores Committee in this city, from a desire to save the character of this country abroad.

Last Sunday night the gas almost went out in Colon, to the no small astonishment of the ladies; luckily, however, the theatre was not left completely in the dark.

The mud, the dirt and filth of the streets of Buenos Ayres, baffles all description. The old inhabitants of Buenos Ayres managed formerly to keep the city clean, but now we have got into a sort of muddy prosperity, and on one of the Municipales being remonstrated with the other day as to the scandalous state of the streets, he answered that for him nothing was more pleasing than to see mud in the streets, as then there is no 'epidemia' in the camp, also it was better to see mud than covered with grass.

with grass. In front of his office there is a sort of muddy Helicopon: no one has been found in the River Plate courageous enough to cross it.

It is with sincere pleasure that we see the National Government doing something to aid in educating the children in the interior provinces.

The Indians of the Chaco on the Cordovan and Santa Fe frontiers are getting worse and worse daily. General Pauero very properly treats, therefore, to re-establish the old fort of Sunchales, which he says is the most exposed point.

The old inhabitants of Buenos Ayres managed formerly to keep the city clean, but now we have got into a sort of muddy prosperity, and on one of the Municipales being remonstrated with the other day as to the scandalous state of the streets, he answered that for him nothing was more pleasing than to see mud in the streets, as then there is no 'epidemia' in the camp, also it was better to see mud than covered with grass.

It is with sincere pleasure that we see the National Government doing something to aid in educating the children in the interior provinces. President Mitre has decreed to the following provinces the following sums: To Bioja, 4,000 patacons; to San Luis, 4,000 patacons; to Catamarca, 3,000 patacons; to Santiago, 2,000 patacons, and to Jujuy, 2,000 patacons.

The Indians of the Chaco on the Cordovan and Santa Fe frontiers are getting worse and worse daily. General Pauero very properly treats, therefore, to re-establish the old fort of Sunchales, which he says is the most exposed point.

On Tuesday evening the Dolores coach, drawn by 28 horses, got stuck on the Barracas road, right under the hill. It was afflictive to see how the outriders, or quartadores, beat the unfortunate horses; such cruelty to the animals would get all these fellows one mouth on the tread-mill.

The Government has received further information from the engineer who leads the expedition through the Chaco. On the 24th of May they were at a place called the Bracho Viejo, an establishment belonging to Sr. Rams & Rapier's Company.

The last news from San Juan is rather good. The mines are all at work, and the rebel Auguero had been captured, and there was an end to all disturbances.

We have refrained from publishing the terms of peace, proposed by the Flores Committee in this city, from a desire to save the character of this country abroad.

Last Sunday night the gas almost went out in Colon, to the no small astonishment of the ladies; luckily, however, the theatre was not left completely in the dark.

PARAGUAY.

We have received the 'Somanario' 11th inst. Everything goes on well at Asuncion. We read of an enterprise started in Bolivia, with the object of opening up communication through the Gran Chaco with Paraguay, and establishing a port on the Western bank of the River Paraguay, which will give Bolivia an outlet towards the Atlantic.

ROARIO.

The 'Espigador' arrived yesterday with the 'Ferro Carril' of 21st inst. There is no news, except that the shareholders of the Central railway were paying their deposits, at the rate of about 100 shares daily. It is now calculated that the number of shares likely to be subscribed for in Santa Fe and Cordoba will not be less than 4,000.

PEACE IN BANDA ORIENTAL.

Return of the Mediators.

In the papers (Reforma) which we received yesterday morning there was nothing positive respecting the issue of the negotiations in charge of Messrs. Thornton, Eizalde, Sariva, Castellanos, and Lamos. The passengers, however, arrived per 'Corrientes,' reported that peace was made, and a special edition of the 'Pais' confirms this, with some particulars.

The Government has received further information from the engineer who leads the expedition through the Chaco. On the 24th of May they were at a place called the Bracho Viejo, an establishment belonging to Sr. Rams & Rapier's Company.

Business is not so good on the Bolsa, from what cause we know not. Produce is scarce, specie there is little done in, and now the brokers are turning their hands to land sales.

One of the shipbrokers has, we perceive, resorted to a rather cheap way of advertising the sailing of his steamers by putting up a notice on the black board of the Bolsa.

The system of buying in specie and selling in currency was greatly discussed on 'Change to-day, and all merchants agree with us that it is a most ruinous system.

SAVINGS BANK BANK MAU & CO.

No. 103 calle de Cangallo. BUENOS-AYRES.

The immediate advantages of Accounts Current are now so generally felt, and appreciated in the two great emporiums of the River Plate—Montevideo & Buenos Ayres—that there are very few Merchants who fail to keep one in the Bank in which they place their most confidence.

The Bank of Mau & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depository for their savings.

The sums deposited in that most important institution are daily increasing and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness or old age, instead of spending them in the immoral gambling, in lotteries and other frivolities.

The Bank of Mau & Co. of this city following the example of their Buenos Ayres September 19th 1863. p. p. Mau & Co. WILLIAM LESLIE.

CONDITIONS.

- 1st. The Bank receives at interest any sum from Twenty five dollars currency or one silver dollar upwards. 2nd. The interest allowed is six per cent [6 p c] per annum which is liquidated every six months. 3rd. The depositor can at any time retire the whole or part of the money deposited. 4th. Once the amount deposited exceeds Twenty five thousand dollars currency or one thousand dollars silver the depositor if he wishes can open an account current according to the rules established by the Bank. 5th. In case the depositor loses his Pass Book it can be replaced by another on paying twice dollars currency, and advertising the loss in the public newspapers.

There are at this time many thousands of Confederate prisoners of war confined in the various forts and camps of the Northern States. A large proportion of them are wounded or sick, and all are in a state of destitution, the accounts of which, as given in private letters and in the newspapers, present a picture of human suffering, which has scarcely a parallel in modern times. The merest necessities of life are wanting, and frequently the wounded prisoner has no room to lie down, and is cramped and stifled with his clotted blood. Horrible as war is in all its features, assuredly it has no greater horrors than the long agony of the poor captive who, when the feverish excitement of the contest is over, is left to the bitter charity of strangers and foes, without one friendly hand to soothe the pains of body or friendly voice to whisper hope and comfort to his despairing mind. These men, cut off from the assistance of their kindred or the protection of their Government, have peculiar claims on the patriotism of their countrymen in Europe, and upon Christian benevolence everywhere. They did not recklessly or from choice embrace the profession of arms, but in exchanging the comforts, and often the luxuries, of home for the toils and hardships of a soldier's life, they obeyed a stern sense of duty and the call of their country in its extremest need. An unusual proportion, also, of those that fill the ranks of the Confederate armies belong to the higher walks of life, upon whom privation, such as are endured by prisoners in the hands of the North, fall with increased severity.

The Southern Prisoners' Relief Fund is intended to mitigate some of these sufferings which cannot altogether be relieved. Within little more than a twelvemonth nearly £3,000 have been collected and expended in relief. The managers of the Fund are assisted in their efforts by self-devoted ladies in the principal Northern cities, who visit the sufferers and give them such aid as the means at their disposal render possible. Of late the Federal Government has granted permission that this Samaritan work may be done openly. It is earnestly hoped that all Southerners residing in South America will support the Fund to the extent of their ability, and its objects may recommend themselves to all, irrespective of country or political convictions, who sympathize with the sufferings of their fellow-men.  
Contributions will be received by J. H. Ashbridge, Treasurer, Walmer Buildings, Water Street, Liverpool; or in London, by Henry Hotze, Esq., 17 Saville Row; in Paris, by H. O. Brewer, Esq., 6 Rue Circulaire; and Daniel Hubbard, Esq., 24 Rue Lord Byron. j18tm.
