REVIEW FOR EUROPE.

Whatever room there may be for improvement in the industrial condition of the country, our political state could not be better. Never since the time of Rivadavia has there been a ruler more beloved and respected by the Argentines of every shade of politics, than the man who at present sways the destiny of the Argentine Nation—Bartholomew Mitre.

Business in the interior provinces is much better than we have noticed for some time. The silver mines in San Juan are at work, and, if we are to believe reports, giving enormous yields.

Nothing can be more surprising and at the same time more disgraceful, than the neglect of every successive Government, since the Independence, to describe an effective military 'cordon,' which would extend from the Cordillera to the Atlantic, a work now shewn to be no less easy of execution than transcendental in its importance.

Now that the republic is happily pacified, and enterprises like the Central Argentine railway are set on foot, it is impossible for the National Government to delay any longer the serious consideration of so vital an element of public tranquillity, progress, and organization as a national frontier.

The Rio Colorado rises in that part of the Andes contiguous to Mendoza, almost in direct line from Buenos Ayres, in 85 S. lat. and 69 W. long.

The advantages to be gained from this scheme, may be thus summed up. 1st. An effective and uniform 'cordon' of frontier posts, garrisoned by proper troops, under experienced officers, acting in concert, and able to lend speedy and mutual assistance at any moment.

Whoever takes up the map of this republic, as designed by Argentine geographers, will find for its southern frontier Cape Horn and the ocean, the province of Buenos Ayres being supposed to extend from Arroyo Medio to Terra del Fuego.

accomplish the greatest attention is paid to lands in Santa Fé and Cordova, and several parties have already purchased estates at from 3,000 to 4,000 silver dollars per square league, within about 35 leagues of Rosario.

A very important land law has been introduced into the Santa Fé Legislature, authorizing the sale of all Government lands in that province, at a fixed price, varying from five thousand silver dollars per square league to two thousand, according to the locality; furthermore, to induce immigration, land is offered free to all who wish to settle on it, provided they introduce on such lands a capital of sheep to the value of one thousand silver dollars.

Mr. John Duguid, a leading merchant of this city, is another champion in the great cause of industrial advancement. He is at present in the Province of Cordova, inspecting the lands and gathering valuable statistics.

sober man, who lands on our shores, is morally certain of being a man of capital in a few years, if he but persevere and earn the good-will of his employer. All the sheepfarmers in this country, what has been their capital in the commencement? a spade and shovel.

PAUNERO'S FRONTIER PROJECT

recovery of 20,000 sq. leagues (a territory three times as large as England) of the finest pasture lands. 4th. A saving of 80 per cent in the number and expenses of the present various frontier forces.

The difficulties to the enterprise are met in this manner: 1st. Most of the Indian tribes would probably refuse peaceful terms, and it would be necessary to drive them southwards across the Colorado; which Paunero undertakes to do, with five corps (each 1000 men) starting simultaneously from Mendoza, San Luis, Rojas, Atul, and Bahia Blanca.

'arroyos' was a frequent and disagreeable feature of the journey, and when at last the British and Argentine pacificators reached the estancia Escondido, they did full justice to the 'puchero' and 'asado' prepared for their bodily refreshment, after which they were fortunate enough to find beds, thus escaping the hardship of sleeping on 'recados.'

ORIENTAL SERENADING.

To the Editors of the 'Standard.' Gentlemen, I am a stranger in this city, and therefore utterly ignorant of the police regulations, but will you please say, in your deservedly popular paper, if singing is prohibited in the streets? My reason for troubling you is, that being passionately fond of music, and when I am in a musical humour I must sing, no matter whether in Sackville-street or Calle San Martin.

As well might the old fellow think of stopping the rapids of Niagara, as keep me from finishing that inspired verse when I had once begun. Angry and annoyed at the impertinence of the fellow, I was just on the point of wrenching the pole from him and breaking the lamp on his head, when the poor fellow cast a 'throw a dollar look at me.' I took out a five dollar bill, the only money I had about me, and handed it to the fellow, with the elegance of Plunketto, and then gave him the first verse—

"So soon may I follow, when friendship's dew, And from Love's shining circle the gems drop away, When eyes hostile be withdrawn, and that once are flown, Oh! who would taketh this black world alone."

As I might the old fellow think of stopping the rapids of Niagara, as keep me from finishing that inspired verse when I had once begun.

An English friend requested us, yesterday, to enroll his name for 5 shares in the Central Argentine Railway stock. We hope to be the immediate means of relieving Mr. Wheelwright of 100 shares at least. We have been desired to ask, how much stock has the Government Bank subscribed for? The Mauá has taken, we think, 260 shares; the London & River Plate, 100; the first, we believe, 0!

The great Freemason banquet takes place this evening, the usual anniversary, St. John. By some mistake we stated it was to come off last night. To-day is a strict holiday: no newspaper to-morrow. The mail closes at the English Consulate to-morrow evening, the Mercury leaving on Sunday afternoon.

LATEST FROM MONTEVIDEO PROCLAMATION OF PEACE

Sr. Elia, who arrived yesterday morning from Montevideo, brought despatches to President Mitre, to the effect that the conciliatory negotiations were fully concluded, and the Foreign Ministers had set out for Flores' camp to have the same formally signed and ratified.

The 'Nacion' states that the British and Argentine Ministers had a narrow escape for their lives on the 17th, as Flores' outposts attempted to charge their escort, sword in hand, not knowing the mission: this is unlikely, as Flores knew of their coming.

The 'Nacion Argentina' mentions that Candido Bustamante has written to his brother in Buenos Ayres, "the peace will be an honor and glory for all Orientals." The news caused so much joy in Montevideo that the 'Reforma' mentions a splendid 'fete-champetre,' to be given at the expense of a few gentlemen, and to be followed by a round of balls.

SUBMISSION OF FLORES. From a correspondent

Montevideo, June 28rd 1864. You will, I suppose, be anxious, in Buenos Ayres to know the current events in this city. The commissioners arrived here on the 21st, after concluding a final arrangement between President Aguirre and General Flores, the latter making an absolute submission, laying down his arms, acknowledging the present legal Government &c.

As this news will, no doubt, be very welcome to all of you on the other side, I hasten to acquaint you of the issue of the mission entrusted to Messrs. Blinardo, Thornton, Saravia, Lamas and Castellanos. These gentlemen were received with great ceremony and civility by General Venancio Flores at his head quarters, and he did not make the least opposition to the pacific settlement of the republic.

The Colorado army was in the most utter destitution, the men looking haggard, tired, hungry, ragged and terrified! Flores himself pitied their lamentable condition, and was heartily glad to have a chance of giving up the war, on fair terms. He said "I will make peace, because I am tired of the war, and I see that the Committee in Buenos Ayres is driving me and my men to desperation; but it is well for those gentlemen that I had not triumphed for then they should have fared badly." He showed Sr. Blinardo a few letters from the Committee urg-

ing, overruling, but the demand for commodities has slackened, and the recent failure of Civallieri has had a most injurious effect upon the market. The following are the principal sales during the fortnight:—

- 60 casks Bordeaux wine, at 895 dols. despatched. 50 do do, 890 dols. do. 6000 fan. salt to arrive, 50 dols do. 2000 tercios yerba, Paraguay, 12 s rls. 100 boxes brandy at 55 dols. 1200 tercios Paraguay yerba at 6 pats in deposit. 100 pipes vino tinto, mark 'Gosset,' 1750 despatched. 100 cuartos vino seco, at 3630 dols, do. 380 barrels olives, 42 do. 400 boxes Bordeaux wine, do. 600 boxes brandy, 84, do. 40 barrels do, 21, do. 600 boxes licores, 50, do. 80 tercios yerba, Parnagua, 49, do. 80 bales Paraguayan tobacco, 23 rls. in deposit. 30 pipes Cotte wine, 1250, despatched. 100 cuartos vino seco, 70 fs. dep. 34 boxes Havana sugar, 23 rls, do. 225 cuarterolas vino seco, 2650, do. 43 boxes dried peaches, Mendoza, 60 dols. per arr. 30 sacks coffee, 630 despatched. 244 tercios yerba, Paraguayan, ex Felix Fortuna, 168 dep. Cargo of Cotte wine (ex J. B. V., No. 2), at 1450 despatched. 150 bodegas vino, 880 despatched. 200 baskets champagne, 190. 180,000 feet New York Pine, at 11 rls. mjc. despatched. 100 sacks coffee, 620 dols, despatched. 180 cuarterolas vino seco, 2650 do.

EXPORTS.

Exporters are as busy as the produce of the country will allow. High prices are asked and given, but the season for exporting on a large scale has passed. Dry hides are very weak, particularly those for the States. The total sales of dry hides during the fortnight amount to hardly five thousand, as owing to the recent heavy rains very little business has been done in the markets, which are unapproachable on account of the mud. The price of wool is very high, and exporters are so anxious to get the article that prices are going up still further; but there is no wool in the country worth talking about. The total sales of the fortnight amounted to twenty thousand arrobas. Wheat still keeps rising. Sales for the last two weeks, five thousand fanegas.

The following are the most important sales made during the fortnight:—

- 380 salted cow hides in the rivers, 43 rls on board. 3200 do do, 40 do. 8700 qd jerked beef, at 20 rls. fs. 280 bales Cordovan wool, 43 rls. 200 do Entre Rios horse hair, 34 do 6000 salted ox hides, 42 rls. on board. 400 pipes tallow, 50 dols. 500 wide hides for Spain, 40 rls. 600 calf do do, 37. 150 tons bone ash, 12 fs. 150 salt cow hides, 31 rls. 10,000 salt horse hides, 16 1/2 fs. 600 bales Santiago wool, 42 rls. 380 do Entre Rios, 25 do. 200 do Cordovan horse hair, 36 do. 4080 qd jerked beef, 24 do. 60 pipes tallow, 40 do. 700 lb. ostrich feathers, 70 dols.

ON CHANGE June 23.

Table with 2 columns: Item and Price. Includes Paper price of ounces 4642, Price of sovereigns 1421, As the 24th is a holiday, there was more business done in specie to-day than usual.

The Government broker sold 20,000 patacons this morning, which were at once bought up by a leading bull at 29.05, and then resold by him at 29.10, making five centesimos by the transaction.

A distinguished bull circulated a report on 'Change that the Provincial Government and the Bank had at last agreed upon a project for the redemption of the paper money, the Bank to buy up one hundred millions of paper dollars, and issuing specie notes at the rate of one patacon to 23 dols. mjc. As on the greatest inquiry, we could hear nothing to confirm this report, we think it has its origin in the inflated imagination of a rather successful ouce broker.

In our quotations of exchange on England yesterday, a typographical error was made, as no exchange as yet has been issued at 49; the lowest we have heard of is 49; still there are many who believe, that before the packet leaves, exchange will be done at 49. The total amount drawn for the packet is under £100,000.

Exchange on Franco is quoted at 5.25 fcs, 4.22 fcs, and 5.18 fcs. FREIGHTS. The Bremen barque Pymout, to load mules in Montevideo, for the Cape of Good Hope, and to bring back goats.

Charters during the fortnight: Italian brig, Solis, for Antwerp, by Bend and Co., Ship Broker. Italian brig, Terrible, for Liverpool, by do. Dutch brig, Groot Gwyk, for Antwerp, by do. French barque Racine, for Havre, by Sagory and Co. Prussian brig No. 2, for Liverpool, by do. Kremen brig Christian, orders. Spanish corvette Palmira, for Harana. Brazilian brigantine Forma, for Brazil.

ERRATA. The date of the organization of the Sanitary Commission was 'June, 1861,' instead of 'June 10, 1863,' as appeared in our report of Mr. Perry's speech at the last meeting.

SAVINGS BANK BANK MAUA & CO. No. 103 calle de Cangallo. BUENOS-AYRES.

The immense advantages of Accounts Current are now so generally felt, and appreciated in the two great emporiums of the River Plate—Montevideo & Buenos Ayres—that there are very few Merchants who fail to keep one in the Bank in which they place their most confidence. The Bank of Mauá & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depository for their savings.

The sums deposited in that most important institution are daily increasing and already reach a very large amount. These advantages have not hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants of all classes & conditions, who are equally interested in putting their savings, at interest, thus providing themselves with a reserve fund in case of need, sickness or old age, instead of spending them in the immoral gambling, in lotteries and other frivolities. The Bank of Mauá and Co. of this city following the example of their

firm in Montevideo now offer the same facilities in this city and will open on the 1st October a 'Savings Bank' at No. 103 calle Cangallo from 9 a. m. to 8 p. m. on week days, and on Sundays and holidays from 10 a. m. to 12 p. m. for the reception of the savings of the classes already mentioned. The Bank will deliver to each depositor a Pass Book in which will be entered the amount deposited and withdrawn. The depositor is permitted at any time to withdraw the whole or part of the sum deposited, in the former case the interest will be calculated up to date. The Bank of Mauá & Co. is sufficiently known to the public by the benefit derived from the course of its operations which are regulated on the strictest and soundest principles and always directed to promote the general welfare. The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.
