MARITIME NEWS

The steamer Paraguay was to leave Montevideo for Liverpool on the 18th inst. The Melba, from Montevideo, arrived at Calcutta on May 5th, but was grounded for two days at the mouth of the Hooghly, and had to be put into a dry dock for examination. The Quenta Mestas, from Buenos Ayres, arrived at Simon's Bay, Cape of Good Hope, on April 13th. She was brought to Algha, and having sprung a leak, unloaded cargo to undergo repairs.

Railways of the United Kingdom

There are at present working in Great Britain and Ireland 375 Railway Companies, with a total mileage of 27,000 miles. They carry eighty millions of passengers per annum, and thirty million tons of merchandise, employing a staff of 300,000 persons. (Public Opinion.)

Important for Sr. Bilbao

We commend to the attention of our starting friend Sr. Bilbao the following startling news which we received post last packet.

A HIGHLY IMPORTANT RUSSIAN REQUEST

100 BARON'S PATENTS. A Paris rumor, quoted by the London Globe, "insists on the existence of a secret article in the Convention between the French and the Mexican Emperors, in virtue of which, previous to the final evacuation of the Gulf by the legions of Gaul, they are to be concentrated towards the Pacific, and put in occupancy of the Sonora district, including the harbor of Acapulco, ostensibly as a reserve force in case of aggression from North America, but in reality to lay a ground work for permanent annexation to the United States, and to construct a great metalliferous tract which all the local Governments in succession have never hitherto turned to account. There is sufficient plausibility in the scheme to warrant the 'London Herald' in ventilating it; nor was it at all necessary to revive the remembrance of former French adventures in those districts, when the 'London Herald' de Bouillon made a dash some years back at them from Lower California. There is already a protectorate established over the Island of Jahn. Nothing connected with the Russian project has been overlooked by Louis Napoleon. A rich Savoy on the Pacific sea board looms in no distant future."

The Pope and the Sanitary Commission

A DONATION OF FIVE HUNDRED DOLLARS. From the 'Buffalo Commercial.' From the following correspondence it will be seen that a liberal contribution has been received by the General Aid Society in this city from the Pope. Buffalo, May 17, 1864. Madam—The Sovereign Pontiff, Pope IX., has, through his Eminence Cardinal Barnabo, notified me with the deepest sorrow and with the most fraternal interest he has heard of the number of gallant soldiers wounded in our many battles, and that he desires me to give in his name, and out of his private purse, \$500, as some aid to alleviate their sufferings. Your truly providentially organized society has done very much to aid our wounded soldiers; hence it seems to me that there can be no better means of accomplishing the kind and paternal wish of His Holiness, than to hand over to you this check for \$500, with my humble and fervent prayers that God's blessing may not only rest on our gallant wounded soldiers, but also on the honored members of your Commission who aid them so generously. Accept the expressions and esteem with which I have the honor to be. Your most obedient humble servant, Mrs. Horatio Seymour, President of U. S. Sanitary Commission. General Aid Society for the Army, Buffalo, May 18, 1864. R. Rev. John Timon.

LOCAL EVENTS

Official Dispensary.—The authorities have forbidden the circulation of the "Standard," and for some weeks past all our mails. They did not think it to notify us of their high and mighty displeasure, nor can we divine the cause, except they fancy we are league with General Poles. I venture that were true, it is very poor laugh, but happily we can afford to laugh at their indignant Excellencies.

News of the Pacific

From Chile to La Plata, across the Cordillera, is now almost impassable, and will effectually prevent all fear of invasion in case Spain annex the Pacific coast. This happy result has been arrived at by suffering the various castles or hospices to fall to ruin, and otherwise leaving the passengers exposed to certain death in either falling over a precipice, or perishing in a snow-storm.

General Mites

A grand military mass took place yesterday at La Merced, the Captain of the Port and his staff, and the authorities. We suppose it was in honor of the late Captain Sardi. Birthdays.—Monday was the birthday of his Majesty, King Pedro II. Emperor of the Brazils. We understand one of his daughters is shortly to be married.

Spain & Perils

Madrid, June 2. The steamer San Domingo has arrived at Vigo from Havana. Her officers from San Domingo state that General Gandara had left for Monte Cristi with 6,700 men. Two Spanish frigates are about to start for the Pacific. A rumor is current that the proceedings of General Pinzon have been approved by the Government.

The 'Epoca' contradicts the statement

that opposition has been made to the concession of the 'Credit Foncier.' It is said that intelligence has been received from Madrid, which would warrant a hope that the dispute with Peru will soon be honorably settled, the Spanish Government having on this point disapproved the recent conduct of their Admiral at Lima.

THE DISPUTE BETWEEN SPAIN AND PERU

The Vice-Consul of Peru in London contains in the 'Globe' the following telegraph statement from Madrid, that the Government of Peru is disposed to satisfy the demands of Spain. "I declare it in the name of the honor and rights of my country. It is only bad faith, and in accordance with public opinion in Europe that could have invented such intelligence, and transmitted it by telegraph to the journals of the Continent. I hold at your disposal all the official documents on the Hispano Peruvian question, and they prove the truth of the contradiction I now give."

The Peruvian Government has purchased

the Pacific Mail Steamship Company's fine new steamer Quilo, for something over \$300,000. Letters from Barcelona state that the Spanish Commander at Montevideo is instructed by this mail to proceed with his vessels to reinforce Admiral Pinzon at the Chincha Islands. Including the six frigates from Santo Domingo, the Spanish fleet will soon number three or four men-of-war.

More news from the Chincha Islands

The convicts on the Chincha, as stated before were set free by the Spaniards. The Peruvian authorities there, wishing to get rid of them, requested Captain Ellis, of the company's steamer Guayaquil, to take them to the Island. The steamer had on board one hundred and sixty three altogether, but unchained and with a guard of only fifteen men. The steamer had no sooner left the coast than the convicts overpowered the guard, who behaved very cowardly, struck the helmsman, fired at the captain, and wanted to force him to take them to the Island. The captain, who was frightened, did not lose his presence of mind. At last he succeeded in making a compromise with the convicts, to put those who wanted shore at Cerro Azul, which was done accordingly, and so the ship, crew, and passengers were saved.

TRIBUNA BLUNDERS

Dear Sirs.—In the 'Tribuna' of to-day there is an exaggerated account of the defeat of 'Blair Athol,' the winner of the Derby, by 'Vermont,' a horse of French blood, as the 'Tribuna' call him. In the facts revealed, 'Vermont's' sire is 'Nabob,' an English blood horse, and he was ridden by Flatman, one of our best jockeys. 'Blair Athol's' defeat was caused by his running the day after his arrival from England, after a stormy passage across the Channel, having arrived on his course on the night before the race. Yours, etc., SROOK.

Confignation—On Saturday night

a fire broke out in the apothecary's shop, at the corner of San Martin and Corrientes. The fire was got under by persons coming home from the theatre, but it was impossible to save the till, in which the owner had foolishly left \$26,000 mtc. instead of at the Maus or River Plate Bank.
